It's true that some people
spend years studying Spanish
before they finally get around
to speaking the language. But
here's a better idea. Skip the
years of study and jump right

to the speaking part. Sound
crazy? No, it's language
hacking. Unlike most
traditional language courses
that try to teach you the rules of
Spanish, #LanguageHacking
shows you how to learn and
speak Italian through proven
memory techniques,
unconventional shortcuts and
conversation strategies
perfected by one of the world's
greatest language learners,
Benny Lewis, aka the Irish
Polyglot. Using the language
hacks -shortcuts that make
learning simple - that Benny
mastered while learning his 11
languages and his 'speak from

the start' method, you will crack
the language code and
exponentially increase your
language abilities so that you
can get fluent faster. It's not
magic. It's not a language gene.
It's not something only "other
people" can do. It's about being
smart with how you learn,
learning what's indispensable,
skipping what's not, and using
what you've learned to have
real conversations in Spanish
from day one. The Method
#LanguageHacking takes a
modern approach to language
learning, blending the power of
online social collaboration with
traditional methods. It focuses

on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of

the book . You don't need to go abroad to learn a language any more.
