You have learned two words in a second language just by reading the title of the book. Think about that for a moment and reflect upon your prior foreign language experiences. Often, students enter language classes with previously acquired skills, be they from secondary

school or another college. Many say, "I have studied Spanish for years and don't know how to speak or write it," while others are a bit anxious about taking a second language for the first time, but all are overwhelmed by the expensive textbooks and online packages that don't seem to be practical or relevant. We sought to change these common complaints by creating materials that take a new approach to learning a second language based upon the skills that we deem most useful and that will enable our students to confidently express themselves in Spanish. The text is designed for beginning Spanish language students. The pedagogical approach incorporates the flipped classroom methodology. The text is supplemented by various presentations and videos that are freely available at <https://milnepublishing.geneseo.edu/youcan1/>

Realidades Communication Workbook with Test Preparation 1 Carson-Dellosa Publishing

In the time of a devastating pandemic, seven women and three men withdraw to a country estate outside Florence to give themselves a diversion from the death around them. Once there, they decide to spend some time each day telling stories, each of the ten to tell one story each day. They do this for ten days, with a few other days of rest in between, resulting in the 100 stories of the Decameron. The

Decameron was written after the Black Plague spread through Italy in 1348. Most of the tales did not originate with Boccaccio; some of them were centuries old already in his time, but Boccaccio imbued them all with his distinctive style. The stories run the gamut from tragedy to comedy, from lewd to inspiring, and sometimes all of those at once. They also provide a detailed picture of daily life in fourteenth-century Italy.
