"You are not thinking, you are merely being logical." -Niels Bohr, Danish physicist and Nobel Laureate Analysis and Assessment of Gateway Process is a document prepared in 1983 by the US Army. This document was declassified by the CIA in 2003. This brief report focuses on the so-called "Gateway Experience," a training program originally designed by the Monroe Institute, a Virginia-based institute for the study of human consciousness. The Gateway experience uses sound tapes to manipulate brainwaves with a goal of creating an altered state of consciousness, which includes out-of-body experiences, energy healing, remote viewing, and time travel. The report concluded that the Gateway Experience is 'plausible' in terms of physical science, and that while more research was needed, it could have practical uses in US intelligence. Students of US intelligence, and anyone interested in the cross-roads between consciousness and reality will find this report fascinating reading.

Tufti the Priestess. Live Stroll Through a Movie John Hunt Publishing

Transurfing is simple, yet powerful Reality Management Technique, developed by the Russian quantum physics researcher Vadim Zeland. Zeland's main goal is to present a set of techniques (which he calls Transurfing of Realities) for the attainment of practical goals. These techniques are of mental and metaphysical nature.

Zeeland supports these techniques by presenting a model of the universe that combines the elements of quantum physics with the idea of parallel worlds. As Zeland states, the use of the techniques is not dependant on the acceptance of his theoretical model. Some Transurfing techniques are very simple and practical. Zeland says: "You can not hide from the inevitable reality. Your life is determined by curcumstances and your place in society. Reality develops for the most part regardless of your own will. For every "I want" there is its own "You can't." In response to "Give it to me" you hear "You can't get it." There is little you can you do in such circumstances.... As a rule, human beings behave unambiguously. In their attempts to get what they want, they try to influence this world straight on, by the principle "Give it back to me." Direct impact, based on direct contact, is one of the ways of controlling something, but it is certainly not the most effective method of controlling reality. Transurfing is ..."

A leader of dream workshops and seminars details a unique, nine-step approach to understanding dreams, using contemporary dreamwork techniques developed from shamanic cultures around the world. Conscious Dreaming shows you how to use your dreams to understand your past, shape your future, get in touch with your deepest desires, and be guided by your

higher self. Author Robert Moss explains how to apply shamanic dreamwork techniques, most notably from Australian Aboriginal and Native American traditions, to the challenges of modern life and embark on dream journeys. Moss's methods are easy, effective, and entertaining, animated by his skillful retelling of his own dreams and those of his students—and the dreams' often dramatic insights and outcomes. According to Moss, some shamans believe that nothing occurs in ordinary reality unless it has been dreamed first. In the dreamscape, we not only glimpse future events, we can also develop our ability to choose more carefully between possible futures. Conscious Dreaming's innovative system of dream-catching and transpersonal interpretation, of dream re-entry adn keeping a dream journal enables the reader to tap the deepest sources of creativity and intuition and make better choices in the critical passages of life.

"With the original unabridged text of Supernatural, I offer the reader an investigation that explores the human experience with psychedelics from the Stone Age to the Space Age and the role of these extraordinary plant medicines as tools to investigate the nature of reality itself."—Graham Hancock Discover the pathway to the gods. Less than 50,000 years ago mankind had no art, no religion, no sophisticated symbolism, no innovative thinking. Then, in a dramatic and electrifying change, described by

scientists as "the greatest riddle in human history," all the skills and qualities that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. In *Visionary*, Graham Hancock sets out to investigate this mysterious "before-and-after moment" and to discover the truth about the influences that gave birth to modern human mind. His quest takes him on a journey of adventure and detection from the stunningly beautiful painted caves of prehistoric France, Spain, and Italy to remote rock shelters in the mountains of South Africa, where he finds a treasure trove of extraordinary Stone Age art. Hancock uncovers clues that lead him to travel to the depths of the Amazon rainforest to drink the powerful plant hallucinogen ayahuasca with Indian shamans, whose paintings contain images of "supernatural beings" identical to the animal-human hybrids depicted in prehistoric caves and rock shelters. Hallucinogens such as mescaline also produce visionary encounters with exactly the same beings. Scientists at the cutting edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of other "dimensions." Could the "supernaturals" first depicted in the painted caves and rock shelters be the ancient teachers of mankind? Could it be that human evolution is not just the "blind," "meaningless" process that Darwin identified, but something more purposive and intelligent, something that we have barely even begun to understand? Previously published as *Supernatural*, this definitive edition includes a new Introduction by Graham Hancock as well as restored chapters that were omitted from the original paperback release.

Collectively, our institutions are slowly destroying life on our planet and many of us feel helplessness and despair as we witness ecocide all around us. We want to act. But first we must understand why it is that so many people seem to care so little about the planet's health. This book focuses on the key question: Why don't people love the Earth? Why, when we know what must be done, do we deflect and argue, doubt and contend? Perhaps it is because age-old, limiting and often damaging cultural beliefs are passed down unexamined. These beliefs blind us to the astonishing and enlightening discoveries of modern science and to a full awareness of our embeddedness in Nature. But we can learn new ways of understanding and appreciating our world and develop beliefs more suitable for this century. *Planet as Self* calls for an Earth-based spirituality: one that acknowledges Gaia as a living, and lovable being created by and radiating the creative energy of the universe. It teaches us how to love God through Nature.

Quantum-Touch 2.0—The New Human endeavors to significantly enlarge the possibilities of what humans can be and do. In clear, step-by-step instructions, the reader will learn to easily demonstrate that human limits are as yet unknown. Readers can learn to do healing on multiple people at once to reduce their pain in minutes, work on multiple conditions at once, help people shift their own beliefs with the use of energy, and work across time and space. Readers will even learn to safely and visibly adjust the posture of multiple people simultaneously without touching. Science assumes that we are separate, and that our thoughts don't affect the outer reality. This notion is something that each of us can now clearly demonstrate to be untrue. The originator of the *Quantum-Touch* energy healing method and a popular workshop leader and speaker at conferences and holistic health institutes, Richard Gordon has been developing and refining *Quantum-Touch* since the publication of his best-selling *Quantum-Touch: The Power to Heal*. Gordon shares his discoveries in this new book, which takes *Quantum-Touch* to a far more powerful level. To enrich the book with scientific insights and commentary, Gordon sought out coauthors Vickie Wickhorst, PhD, and Chris Duffield, PhD. As academics investigating the convergence of science, technology, and the power of the human energy field, Wickhorst and Duffield serve as perfect guides to help readers, even skeptical ones, uncover their own process of discovery. This book is a must for all world travelers! From the Trade Paperback edition. John Hunt Publishing

Parallel Universes of Self John Hunt Publishing

The "Parallel Worlds Theory" says, simply, that everything that can happen does. Dodson discusses how one can "create" his or her reality by becoming the parallel-world version of oneself for whom the desired experience is already real.

The universe exists according to certain laws. Knowing these laws, a person can change life according to his desires. Reality ceases to exist as something external and independent in relation to man - he acquires the ability to subordinate it to his will. Speech in this book will be about Transurfing - it is a powerful technique that gives the power to create impossible, from an ordinary point of view, things, namely, to control fate at your discretion. Despite the fact that much of what you learn will seem quite unusual to you, remember: there is no fiction here - everything is real

Not to invalidate your beliefs and the societal structure you comfortably reside in, but to support your return to the radical self-responsibility and vast open mindedness of a spiritually mature being. With all the presuppositions, "knowledge" and "facts" you have gathered about life, you will hardly be able to dive into the unknown and learn something new or experience the vivid freshness of Infinity. As is typical for the human condition, some of your ways of seeing things have become stale, to say the least. Even if your convictions and conclusions were useful at one time, doesn't it get incredibly dull to think the same things over and over and over, and to perceive things from the same vantage point again and again and again? But as nothing can be added or taken away from Infinity, the belief- systems we "shatter" will not be lost. You can pick them up and reassemble them later if you need some concepts to hold on to or if you get scared of the joyous enormity of it all. Nobody is forcing you to have too much fun. Expanding awareness in the original sense means: Seeing, Feeling, Perceiving, Noticing, Experiencing, Doing something you have not seen, felt, perceived, noticed, experienced, done before. It's as simple as that. If this is what is happening to you, then you are using this book the way it was meant to be used. On a quantum level, when you want it (whatever that is), it is created instantly, you don't receive it instantly only because you are surrounded by a layer of resistance, and so, when your world comes to deliver and knocks on your door, chances are you are not there.

'Life Can Be a Miracle' is possibly the most unexpected course in miracles (in a novel) you may encounter. The book comes from one of the enigmatic parts of the world: the Balkans, and particularly from the oldest and rather mysterious country there, Bulgaria. Like the unique asymmetric rhythms of Bulgarian music that astonish Western even temperament, the approach to reality this book offers may shake up your structured, algorithmic and perhaps boring or ineffective approach to life. 'Life Can Be a Miracle' brings an unusually optimistic breath of fresh air, as warm as a Balkan summer, to our way of perceiving reality. This is the right book for readers who want a fresh take on reality, who do not take themselves too seriously and who would like to explore new and different ways to relate to themselves and to the world -- not as alien and hostile subjects, but rather as allies who share and exchange extraordinary resources in surprising ways. How can a tiny piece of blue cheese lead you to your ultimate life purpose, removing all the barriers you have built against a joyful, fulfilled, miraculous life? This and many more incredibly fun and easy-to-apply techniques can be found in this fascinating, original and inspiring novel.
