A Musical Adventure With Song Patterns and Free Online Audio Tracks! To begin a new adventure, an explorer needs a map. Many individuals would like to start a musical journey, but the inability to read musical notation holds them back. This Music Pattern Song Book was created to give those brave souls a place to begin. It's Easy! All one needs to do is match the color blocks or letters in these musical song patterns to an instrument, and beautiful music can be made. This book works well with xylophones, glockenspiels, recorders, hand bells, piano and more! Any instrument that can play an eight-note C to C scale can be used with this book. Fingering Charts for the recorder and piano are included. All of this book's song patterns are color-coded AND letter-coded, so as long as you know the fingering for the notes of your instrument, you can play along. In these song patterns, it is illuminating to see a visual representation of the sounds that you hear. Each song has structure and repeating patterns, but each one is unique. If you are a student of music theory, these colored patterns may give you a new perspective on the way

music is put together. A Place to Begin! Many parents and classroom teachers feel unequipped to teach the next generation about music because they had little opportunity to learn themselves. Sometimes, older adults who missed the chance to play an instrument when they were younger are determined to begin. Music therapists are often looking for tools to bring music to their patients. Children delight in banging the keys of a percussion instrument but need some help to know what to do next. Yet, where does one who has not yet learned to read musical notation begin? Most people can match colors or letters, which makes color and letter coded music song patterns a good place to start. In this book, the songs progress from easy children's tunes to more complicated pieces and duets. Duets are included so that groups can make music together! Benefits! It is well documented that learning to play a musical instrument stimulates multiple areas of the brain and increases the brain's cognitive ability, but it also enhances eye-hand coordination and balance. It can increase math ability and improve reading and comprehension skills as well as listening ability. Playing together in a group boosts leadership and team work skills and teaches discipline. Music fosters self-expression, creates a sense of achievement, relieves stress, and promotes happiness. For Musicians of All Ages! Starting a new activity, no matter what your age, takes courage, resources and support. These song patterns are provided to make it a little easier to take that first musical step! Contents: Greetings; Many Instruments to Play; Beat, Rhythm and Tone; Music Notes and Rhythms; Artistry; Taking it Step by Step The Songs: Jingle Bells, Jolly Old St. Nicholas, Good King Wencesles, Go Tell it on the Mountain, While Shepherds Watched Their Flocks, Up on the Housetop, Deck the Halls, Angels We Have Heard On High, Joy to the World Melody, Joy to the World Harmony, Boyce Hallelujah - A Round, Mozart Alleluia - A Round, Christ Was Born on Christmas Day, I Saw Three Ships, Over the River, It Came Upon a Midnight Clear, Here We Come A-Wassailing, Bring the Torch Jeanette Isabella, The Holly and the Ivy, The First Noel, The First Noel Harmony, We Wish You a Merry Christmas, We wish You a Merry Christmas Harmony Lyrics to All of the Songs are included as well as music instruction, a Recorder Fingering Chart and a Piano Fingering Chart!

Written for general music classes, group and private instruction, and self-learners, *Playing the Soprano Recorder* provides teachers and students with a sequential and musical approach to learning Western music notation and soprano recorder playing. In addition, each lesson provides opportunities to apply, in creative ways, the notation and concepts they learn and also to support the development of creative thinking and the tools needed for composing music in Western notation. The teaching materials and pieces presented in the text are extremely musical and satisfying to learn from the first lesson to the last. Students enjoy the richness of ensemble playing. In addition to a practice/performance music website, written piano accompaniments for all 76 pieces are included, many with optional, additional instrumental parts. The words of songs are included for nurturing both singing and instrument playing. The text can be used successfully in multiple and varied settings of teaching and learning, making collaborations between teachers in school, private, after school enrichment, and outreach programs easy. Usage is flexible; as excellent as a college text in teacher preparation and adult general music classes as in third - eighth grade classes due to the "go to your own pace" comprehensive instructional format of the book. Performance of the beautiful ensemble pieces is a natural and desired outcome of "players" learning. Due to the selection of pieces, there are many possibilities for interdisciplinary education as well as expansions of and links to other areas within the discipline of music. All nine of the National Standards for Music Education are supported in this approach.

This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. We use an "easy-to-play" visual aid so any beginner can play music quickly. No previous knowledge is necessary. Every song has a large and simple letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There are 22 songs and 2 options to help children begin to play right away. PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. Level 2 In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Version 1 - CIRCLES Hot Cross Buns - Version 1 - NOTES Hot Cross Buns - Version 2 - NOTES (Here, the player will play songs in a different key and learn how to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the beginning of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to the recorder instrument. Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of flute or recorder.
