"In considering law through the lens of
performance studies, the contributors in
this volume emphasize the embodied,
affective, and reiterative qualities that
move law off the printed page and into
the thick world of lived experience.
They consider the blurring of lines
between performance and the
enactment of law, the transformative
exchanges between the law and its
many and varied stagings, and the
impact or resonance of performativity in
situations where innocence and guilt
may be determined."--
