For more than a century, sporting spectacles, media coverage, and popular audiences have staged athletics in black and white. Commercial, media, and academic accounts have routinely erased, excluded, ignored, and otherwise made absent the Asian American presence in sport. This book seeks to redress

this pattern of neglect, presenting a comprehensive perspective on the history and significance of Asian American athletes, coaches, and teams in North America. The contributors interrogate the sociocultural contexts in which Asian Americans lived and played, detailing the articulations of

power and possibility, difference and identity, representation and remembrance that have shaped the means and meanings of Asian Americans playing sport in North America. This volume will be of interest to students and scholars of the Asian American experience, ethnic relations, and the

"A galvanizing exposé"  
of America's trash  
problem from plastic  
in the ocean to  
"wasteful packaging,  
bogus recycling, and  
flawed landfills and  
incinerators"  
(Booklist, starred  
review). Eat a take-  
out meal, buy a pair  
of shoes, or read a  
newspaper, and you're  
soon faced with a  
bewildering amount of  
garbage. The United  
States is the planet's

number-one producer of  
trash. Each American  
throws out 4.5 pounds  
daily. But garbage is  
also a global problem.  
Today, the Pacific  
Ocean contains six  
times more plastic  
waste than zooplankton.  
How did we end up with  
this much rubbish, and  
where does it all go?  
Journalist and  
filmmaker Heather  
Rogers answers these  
questions by taking  
readers on a grisly and  
fascinating tour  
through the underworld

production, consumer  
culture, and our  
throwaway lifestyle  
(New York Press). She  
also investigates the  
politics of recycling

while offering a potent  
argument for change. "A

Recycle The Essential Guide is the indispensable handbook to recycling today. With vibrant visuals and a clear,

accessible layout, the book is an invaluable resource that tackles everything from the urgency of resource depletion on a global scale to what the individual reader can do to reduce waste in their own home.

Beginning with a witty, thought provoking introduction by renowned Observer journalist, Lucy Siegle, Recycle includes detailed sections on recyclable materials and what the individual reader can do to facilitate the

recycling process. Case studies from all over the world pay tribute to exceptionally successful or innovative approaches to recycling and a consumer directory of eco designers proves that ethical living and trendiness don't necessarily contradict each other. Recycle also includes a comprehensive international directory, that points readers in the direction of organisations and charities that can help

---

them to take further steps towards waste reduction. With natural resources dwindling and oil prices rocketing, it's time to wake up and smell the rubbish. It's time to take responsibility for our waste. Recycle is the essential guide for all those who want to take that journey but aren't sure where to start.
