With so much competing for the time of today's students, youth services librarians have an especially challenging job. How can they

reach their target audience? One of the surest ways is the promotion—through the local school system—of a series of class visits to the public library. But where to begin? Choosing a grade level, contacting school officials and teachers, and planning age-appropriate programs are among the many steps that librarians must take—but may feel unprepared for. Encouraging the collaboration of professionals in public libraries and local schools, this comprehensive guide presents a detailed framework

---

for a versatile program of class visits. Written by two public librarians with firsthand experience, it describes, in a step-by-step format, how to accomplish a structured series of class visits. The book addresses procedures, planning and implementation, and offers suggestions for both elementary and secondary school visits. Informational packets and other print materials are provided for each level. Possible challenges are discussed, with thoughts on their impact on

the overall program and ways to find workable solutions. The appendices contains easily adaptable templates including sample schedules, letters to teachers and evaluation forms. **Sylvia's Spinach** John Wiley & Sons  
Learn at home with help from the education experts at The Princeton Review! 1ST GRADE AT HOME provides simple, guided lessons and activities that parents can use to help keep 1st graders on track this year. Anxious about remote learning and hybrid schooling? Worried that the

---

unique circumstances around coronavirus and education might keep your child from getting the help they need in class this year? Want to help support your child's schooling, but not sure where to start? You're not alone! 1ST GRADE AT HOME is a parent guide to supporting your child's learning, with help you can undertake from home. It provides:

- Guided help for key 1st grade reading and math topics
- Skills broken into short, easy-to-accomplish lessons
- Explanations for parents, plus independent question sets for kids
- Fun at-home learning activities for each skill that use common household items
- Parent tips, review sections, and challenge activities seeded throughout the book

The perfect mix of parent guidance, practical lessons, and hands-on activities to keep kids engaged and up-to-date, 1ST GRADE AT HOME covers key grade-appropriate topics including:

- letters and sounds
- compounds and contractions
- early reading comprehension
- numbers and place value
- addition and subtraction

When a class leaves for recess, their just-baked

---

Gingerbread Man is left behind. But he's a smart cookie and heads out to find them. He'll run, slide, skip, and (after a mishap with a soccer ball) limp as fast as he can because: "I can catch them! I'm their Gingerbread Man!" With help from the gym teacher, the nurse, the art teacher and even the principal, the Gingerbread Man does find his class, and he's assured they'll never leave him behind again. Teachers often use the Gingerbread Man story to introduce new students to the geography and staff of schools, and this fresh, funny twist on the original can be used all year long. Includes a poster with fun activities!

Past and Present : Hands-on Social Studies, Grade 4 Portage & Main Press

Engage students in mathematics using growth mindset techniques. The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this volume, you'll find a collection of low-floor, high-ceiling tasks that will help you do just that,

by looking at the big ideas in second grade through visualization, play, and investigation. During their work with tens of thousands of teachers, authors Jo Boaler, Jen Munson, and Cathy Williams heard the same message?that they want to incorporate more brain science into their math instruction, but they need guidance in the techniques that work best to get across the concepts they needed to teach. So, the authors designed Mindset Mathematics around the principle of active student inquiry, with tasks that reflect the latest brain science on learning. Open, creative, and visual math tasks have been shown to support student learning, and more importantly change their relationship with

---

mathematics and start believing in their own potential. The tasks in Mindset Mathematics reflect the lessons from brain science that: There is no such thing as a math person and anyone can learn mathematics to high levels. Mistakes, struggle, and challenge are opportunities for brain growth. Speed is unimportant, and even counterproductive, in mathematics. Mathematics is a visual and beautiful subject, and our brains want to think visually about mathematics. With engaging questions, open-ended tasks, and four-color visuals that will help kids get excited about mathematics, Mindset Mathematics is organized around nine big ideas which emphasize the connections within

the Common Core State Standards (CCSS) and can be used with any current curriculum.

*A Guide to Teaching by Discipline and Student Population, Second Edition* Carson-Dellosa Publishing For both new and experienced young adult librarians with little time to plan and execute programs for teens, this book does not simply highlight established programs, but provides invaluable blueprints for teen library events. For each month of the calendar year, two or three popular programs--ranging from a poetry contest to a summer job program--are presented with instructions, sample flyers, and checklists, along with instructions for ongoing procedures soliciting teens' opinions, such as a monthly question board and running a Teen Advisory. Includes booktalks and

---

ideas for working with and marketing your programs to schools and the community.

**Bringing Classes into the Public Library** Teacher Created Resources

Upper-elementary students encounter a sometimes dizzying array of traditional and nontraditional texts both in and outside of the classroom. This practical handbook helps teachers in grades 4-6 harness the instructional potential of fiction, poetry, and plays; informational texts; graphic novels; digital storytelling; Web-based and multimodal texts; hip-hop; advertisements; math

problems; and many other types of texts. Twenty-four complete lessons promote critical literacy skills such as comprehending, analyzing, and synthesizing information and using writing to communicate new ideas and pose questions. Snapshots of diverse classrooms are accompanied by clear explanations of the research base for instruction in each genre. Ready-to-use reproducibles are included.
