When Kids Can't Read, what Teachers Can Do University Press of Colorado

Featuring a new introduction, this updated edition of the New York Times bestselling classic by Pulitzer Prize and National Book Award – winning author and one of the most revered figures in American letters is “ profound and priceless as guidance for anyone who aspires to write ” (Los Angeles Times). Born in 1909 in Jackson, Mississippi, Eudora Welty shares details of her upbringing that show us how her family and her surroundings contributed to the shaping not only of her personality but of her writing as well. Everyday sights, sounds, and objects resonate with the emotions of recollection: the striking clocks, the

Victrola, her orphaned father ’ s coverless little book saved since boyhood, the tall mountains of the West Virginia back country that became a metaphor for her mother ’ s sturdy independence, Eudora ’ s earliest box camera that suspended a moment forever and taught her that every feeling awaits a gesture. In her vivid descriptions of growing up in the South—of the interplay between black and white, between town and countryside, between dedicated schoolteachers and the children they taught—she recreates the vanished world of her youth with the same subtlety and insight that mark her fiction, capturing “ the mysterious transfiguring gift by which dream, memory, and experience become art ” (Los Angeles Times Book Review). Part memoir, part exploration of the seeds of creativity, this unique distillation of a writer ’ s beginnings offers a rare glimpse into the Mississippi childhood that made Eudora Welty the acclaimed and important writer she would become.

According to Raybeck, the solitary dictum that best characterizes fieldwork is Things go awry. In this spirited account of his time spent in Southeast Asia, Raybeck describes several adventures and misadventures involving field research, as well as the understanding, humility and bruises that these experiences leave behind. Since fieldwork is situated, Raybeck's treatment also includes rich descriptions of Kelantanese society and culture, addressing such topics as kinship, linguistics, gender relations, economics, and political structures. Through the lively pages of this narrative, readers gain insight into the human dimension of the fieldwork undertaking, a sense of how the anthropologist builds rapport in a research setting, and how reliable information is obtained.

Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of the craft of writing. Consequently, each essay functions as a standalone text

that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level.

Reflection in writing studies is now entering a third generation. Dating from the 1970s, the first generation of reflection focused on identifying and describing internal cognitive processes assumed to be part of composing. The second generation, operating in both classroom and assessment scenes in the 1990s, developed mechanisms for externalizing reflection, making it visible and thus explicitly available to help writers. Now, a third generation of work in reflection is emerging. As mapped by the contributors to *A Rhetoric of Reflection*, this iteration of research and practice is taking up new questions in new sites of activity and with new

theories. It comprises attention to transfer of writing knowledge and practice, teaching and assessment, portfolios, linguistic and cultural difference, and various media, including print and digital. It conceptualizes conversation as a primary reflective medium, both inside and outside the classroom and for individuals and collectives, and articulates the role that different genres play in hosting reflection. Perhaps most important in the work of this third generation is the identification and increasing appreciation of the epistemic value of reflection, of its ability to help make new meanings, and of its rhetorical power—for both scholars and students. Yancey explores reflection as a promising body of practice and inquiry in the writing classroom. Yancey develops a line of research based on concepts of philosopher Donald Schon and others involving the role of deliberative reflection in classroom contexts. Developing the concepts of reflection-in-action, constructive reflection, and reflection-in-presentation, she offers a structure for discussing how reflection operates as students compose individual pieces of writing, as they progress through successive writings, and as they deliberately review a compiled body of their work—a portfolio, for example. Throughout the book, she explores how reflection can enhance student learning along with teacher response to and evaluation of student writing. *Reflection in the Writing Classroom* will be a valuable addition to the personal library of faculty currently teaching in or administering a writing program; it is also a natural for graduate students who teach writing courses, for the TA training program, or for the English Education program.

But Can I Start a Sentence with "But"?

Since the 1980s, the concept of Reflective Practice has gained in popularity and is now a major component of teacher education and professional development programs worldwide. This book is one of the first to show how this technique can be embraced by language teachers. It makes sense that for those whose job it is to teach writing, a good way to be reflective is by writing regularly about their work. *Reflective Writing for Language Teachers* shows language teachers how they can use writing as a way to subject their beliefs and practices to critical reflection and offer

them a means of using this type of reflective practice for professional development purposes. When language teachers write about various facets of their work over a period of time, and then read over their entries looking for patterns in their own thoughts, they may uncover aspects of their practice that they had not realized before beginning to write reflectively. Reflective writing develops language teachers' understanding of their practice and also leads to a clarification of the values and assumptions that underlie those practices.

Kim Edwards' stunning novel begins on a winter night in 1964 in Lexington, Kentucky, when a blizzard forces Dr. David Henry to deliver his own twins. He asks his nurse, Caroline, to take the baby away to an institution and never to reveal the secret. Instead, she disappears into another city to raise the child herself. So begins this beautifully told story that unfolds over a quarter of a century—in which these two families, ignorant of each other, are yet bound by the fateful decision made that winter night long ago. A family drama, *The Memory Keeper's Daughter* explores every mother's silent fear: What would happen if you lost your child and she grew up without you?
