**City of Night** Simon and Schuster

A good-natured lion sees his reflection in a pool, gasps at the fierce creature staring back at him, and is too frightened to drink – until finally, his thirst makes him forget his fear. The story helps children learn how to deal positively with fears and inhibitions which so commonly arise in new and unfamiliar situations.

The world-famous French singer Édith Piaf (1915-63) was never just a singer. This book suggests new ways of understanding her, her myth and her meanings over time at home and abroad, by proposing the notion of an ‘imagined’ Piaf.

**Fun Home** Brill / Rodopi

This absorbing, heartfelt work uncovers the story of the real dancer behind Degas’s now-iconic sculpture, shedding light on the struggles of late nineteenth-century Parisian life. She is famous throughout the world, but how many know her name? You can admire her figure in Washington, Paris, London, New York, Dresden, or Copenhagen, but where is her grave? We know only her age, fourteen, and the work that she did—because it was already grueling work, at an age when children today are sent to school. In the 1880s, she danced as a “little rat” at the Paris Opera, and what is often a dream for young girls now wasn’t a dream for her. She was fired after several years of intense labor; the director had had enough of her repeated absences. She had been working another job, even two, because the few pennies the Opera

paid weren’t enough to keep her and her family fed. She was a model, posing for painters or sculptors—among them Edgar Degas. Drawing on a wealth of historical material as well as her own love of ballet and personal experiences of loss, Camille Laurens presents a compelling, compassionate portrait of Marie van Goethem and the world she inhabited that shows the importance of those who have traditionally been overlooked in the study of art.

“ A funny and satisfying love story [that] challenges simplistic preconceptions. ” —Publishers Weekly Beckett Gaines, a gay teen living in South Carolina, has his world turned upside-down by a jock in this laugh-out-loud novel that ’ s Simon vs. the Homo Sapiens Agenda meets The Parent Trap. Beck: The Golden Girls-loving, out-and-proud choir nerd growing up in the “ ass-crack of the Bible belt. ” Jax: The Golden Boy, star quarterback with a slick veneer facing uncomfortable truths about himself and his past. When Beck ’ s emotionally fragile dad starts dating the recently single (and supposedly lesbian) mom of former bully Jaxon Parker, Beck is not having it. Jax isn ’ t happy about the situation either, holding out hope that his moms will reunite and restore the only stable home he ’ s ever known. Putting aside past differences, the boys plot to derail the budding romance between their parents at their conservative hometown ’ s first-ever Rainbow Prom. Hearts will be broken, new romance will bloom, but nothing will go down the way Beck and Jax have planned. In his hilarious and provocative debut, Greg Howard examines the challenges of growing up different in a small southern town through the lens of colorful and unforgettable characters who stay with you long after the last drop of sweet tea.

**The Feminine Mystique** Jo Fletcher Books From bestselling author J. Dominique comes a beautifully crafted, new hood love series. This enthralling urban romance novel, Chino And Chanelle, is full of drama, heartbreak, and page-turning romance. Difficult.

Painful. Conditional. These words shouldn't be paired with love. However, for these three friends, they go hand in hand. Chanelle seems like she has it all—a loving fiancé, a new booming business, and a wedding that she's been waiting for all her life to plan. She should be excited about her future,

but one mistake on her fiancé 's part could threaten everything she's worked for. When sparks literally fly during a chance encounter, she finds that maybe what she wants isn't always what she needs. India is a firecracker that has been involved in an entanglement that leaves her feeling used and abused every time. She's still holding out hope that love will come through for her until she can no longer lie to herself. After running into a one-night stand that left her with conflicting feelings, she finds herself right back where she started. Will love ever love her? Or is she forever destined to be a side chick? Alexis is the friend that puts money over everything, even the secret man in her life. She doesn't believe in the same fairy tales that her friends do, and as far as she's concerned, love doesn't pay the bills. Time and time again, she puts her best interest over the man she loves, but will they last time be the last time he lets her play him in the name of love? Chino and Jayceon are hittas for the largest organization in the city of Chicago and very good at their jobs. They keep business running smoothly for the men of The Four Corners, and in return, they're rewarded handsomely. But when they run across Chanelle and India, they get hit with one problem after another, opening them up to new threats and obstacles. Will the guys come out on top as usual? Or will their worlds be changed forever?

Bold and inventive in style, City of Night is the groundbreaking 1960s novel about male prostitution. Rechy is unflinching in his portrayal of one hustling 'youngman' and his search for self-knowledge among the other denizens of his neon-lit world. As the narrator moves from Texas to Times Square and then on to the French Quarter of New Orleans, Rechy delivers a portrait of the edges of America that has lost none of its power. On his travels, the nameless narrator meets a collection of unforgettable characters, from vice cops to guilt-ridden married men eaten up by desire, to Lance O'Hara, once Hollywood's biggest star. Rechy describes this world with candour and understanding in a prose that is highly personal and vividly descriptive.

The History and Future of the World Trade Organization is a comprehensive account of

the economic, political and legal issues surrounding the creation of the WTO and its evolution. Fully illustrated with colour and black-and-white photos dating back to the early days of trade negotiations, the publication reviews the WTO's achievements as well as the challenges faced by the organisation, and identifies the key questions that WTO members need to address in the future. The book describes the intellectual roots of the trading system, membership of the WTO and the growth of the Geneva trade community, trade negotiations and the development of coalitions among the membership, and the WTO's relations with other international organisations and civil society. Also covered are the organisation's robust dispute settlement rules, the launch and evolution of the Doha Round, the rise of regional trade agreements, and the leadership and management of the WTO.

Postcolonial theory is one of the key issues of scholarly debates worldwide; debates, so the author argues, which are rather sterile and characterized by a repetitive reworking of old hackneyed issues, focussing on cultural questions of language and identity in particular. She explores the divergent responses to the debates on globalization.

Ten year old Ferius Parfax has a simple plan: kill every last inhabitant of the spell-gifted nation that destroyed her people, starting with the man who murdered her parents. Killing mages is a difficult business, of course, so Ferius undertakes to study the ways of the Argosi: the loosely-knit tribe of tricksters known for getting the better of even the most powerful of spellcasters. But the Argosi have a price for their teachings, and by the time Ferius learns what it is, it may be too late. Whilst living in the Balearic island of Ibiza, an island renowned for the healing properties of its water, world-renowned photographer, Hugh Arnold, was moved to follow a new direction in his work. Inspired by the limitless possibilities of the three-dimensional, weightless medium of underwater photography, he embarked upon a 12-month adventure that would see him travel the world to explore man's relationship with the sea. Arnold began his journey in Australia, but cold Antarctic currents, poor visibility, box jellyfish and sharks all conspired to push Arnold further afield to Fiji where he shot until storms made diving impossible. Then, lured by the Tuna rearing pens in Gozo, an island off Malta, he travelled there to complete his mission. The result is this luxurious

368-page book, which takes us on a journey to explore the ocean, and ourselves, in a totally new way. It is an evocative and breath-taking volume that reflects the ocean as a feminine element, captured in Arnold's stunning images of underwater nudes. Immersed in the playfulness and sensuality of water, the swimmers, Nika Lauriat and Polina Barbasova, express the cycles of Woman through fluidity of movement: the womb's embrace, growth, discovery, sexuality, and of course, beauty. Arnold's work provokes and invokes. It arouses reflection and understanding of man's connection to a greater and larger world.

Focusing on Stendhal, Gérard de Nerval, George Sand, Émile Zola, and Marcel Proust, *The Novel Map: Mapping the Self in Nineteenth-Century French Fiction* explores the ways that these writers represent and negotiate the relationship between the self and the world as a function of space in a novel turned map. With the rise of the novel and of autobiography, the literary and cultural contexts of nineteenth-century France reconfigured both the ways literature could represent subjects and the ways subjects related to space. In the first-person works of these authors, maps situate the narrator within the imaginary space of the novel. Yet the time inherent in the text's narrative unsettles the spatial self drawn by the maps and so creates a novel self, one which is both new and literary. The novel self transcends the rigid confines of a map. In this significant study, Patrick M. Bray charts a new direction in critical theory. To Build a Fire Cambridge University Press  
Praise for the first edition: "This excellent text will be useful to every system engineer (SE) regardless of the domain. It covers ALL relevant SE material and does so in a very clear, methodical fashion. The breadth and depth of the author's presentation of SE principles and practices is outstanding." — Philip Allen  
This textbook presents a comprehensive, step-by-step guide to System Engineering analysis, design, and development via an integrated set of concepts, principles, practices, and methodologies. The methods presented in this text apply to any type of human system -- small, medium, and large organizational systems and system development projects delivering engineered systems or services across multiple business sectors such as medical, transportation, financial, educational, governmental, aerospace and defense, utilities, political, and charity, among others. Provides a common focal point for "bridging the gap" between and unifying System Users, System Acquirers, multi-discipline System Engineering, and Project, Functional, and Executive Management education, knowledge, and decision-making for developing systems, products, or services. Each chapter provides definitions of key terms, guiding principles, examples, author's notes, real-world examples, and exercises, which highlight and reinforce key SE&D concepts and

practices. Addresses concepts employed in Model-Based Systems Engineering (MBSE), Model-Driven Design (MDD), Unified Modeling Language (UMLTM) / Systems Modeling Language (SysMLTM), and Agile/Spiral/V-Model Development such as user needs, stories, and use cases analysis; specification development; system architecture development; User-Centric System Design (UCSD); interface definition & control; system integration & test; and Verification & Validation (V&V). Highlights/introduces a new 21st Century Systems Engineering & Development (SE&D) paradigm that is easy to understand and implement. Provides practices that are critical staging points for technical decision making such as Technical Strategy Development; Life Cycle requirements; Phases, Modes, & States; SE Process; Requirements Derivation; System Architecture Development, User-Centric System Design (UCSD); Engineering Standards, Coordinate Systems, and Conventions; et al. Thoroughly illustrated, with end-of-chapter exercises and numerous case studies and examples, *Systems Engineering Analysis, Design, and Development, Second Edition* is a primary textbook for multi-discipline, engineering, system analysis, and project management undergraduate/graduate level students and a valuable reference for professionals.

'Guaranteed to increase household swashbuckling by 100%,' says *Library Journal*. *The Greatcoats* - legendary heroes, arbiters of justice . . . or notorious traitors? *The Greatcoats* are travelling magistrates bringing justice to all . . . or at least they were, before they watched the Dukes impale their King's head on a spike. Now the land's heroes are reviled as traitors, their Greatcoats in tatters. 'One hell of a good book' - Conn Iggulden, author of the Sunday Times Top Five bestseller *The Gates of Athens*. *Facio*, *Kest* and *Braiti* have been reduced to working as mercenaries, but when they find their employer dead - and are forced to watch as the killer plants evidence framing them for the murder - they realise things are about to get even worse. For the royal conspiracy that began with overthrowing an idealistic young king is spreading to Rijou, the most corrupt city in the land, and the life of a young girl hangs in the balance. When every noble is a tyrant and every knight is a thug, the only thing you can really trust is a traitor's blade.
