This one-volume introduction to systematic theology draws deeply on the catholic and Reformed heritage to present the major doctrines of the Christian faith, displaying the power of theological retrieval for the church's renewal. Leading Reformed theologians, such as Kevin Vanhoozer, John Webster, Michael Horton, and Oliver Crisp, offer the "state of the question" on standard theological topics and engage in both exegetical and historical retrieval for the sake of theological analysis. The book represents the exciting new theological trajectory of Reformed catholicity.
Reformed Ethics : Volume 2 Baker Books

Dutch Calvinist theologian Herman Bavinck, a significant voice in the development of Protestant theology, remains relevant many years after his death. His four-volume Reformed Dogmatics is one of the most important theological works of the twentieth century. James Eglinton is widely considered to be at the forefront of contemporary interest in Bavinck's life and thought. After spending considerable time in the Netherlands researching Bavinck, Eglinton brings to light a wealth of new insights and previously unpublished documents to offer a definitive biography of this renowned Reformed thinker. The book follows the course of Bavinck's life in a period of dramatic social change, identifying him as an orthodox Calvinist challenged with finding his feet in late modern culture. Based on extensive archival research, this critical biography presents numerous significant and previously ignored or unknown aspects

of Bavinck's person and life story. A black-and-white photo insert is included. This volume complements other Baker Academic offerings on Bavinck's theology and ethics, which together have sold 90,000 copies.

Reformed Dogmatics: Anthropology Lexham Press

Winner of the Christianity Today Book Award in Theology/Ethics (2019) To see God is our heart's desire, our final purpose in life. But what does it mean to see God? And exactly how do we see God--with our physical eyes or with the mind's eye? In this informed study of the

beatific vision, Hans Boersma focuses on "vision" as a living metaphor and shows how the vision of God is not just a future but a present reality. Seeing God is both a historical theology and a dogmatic articulation of the beatific vision--of how the invisible God becomes visible to us. In examining what Christian thinkers throughout history have written about the beatific vision, Boersma explores how God trains us to see his character by transforming our eyes and minds, highlighting continuity from this world to the next. Christ-centered, sacramental, and ecumenical, Boersma's work presents life as a never-ending journey toward seeing the face

of God in Christ both here and in the world to come.

Times bestselling

author Timothy Keller

outlines the reasons why forgiveness has to be a central part of everyone's lives.

Forgiving anyone in a meaningful way is one of the hardest things a person has to do. If you do not, resentment and vengeance begin to consume you. It is nearly impossible to move past

transgression without forgiveness, but few people have the resources and the tools to forgive others fully and move on with their lives.

Forgiveness is an essential skill, a moral imperative, and

a religious belief that cuts right to the core of what it means to be human. In *Forgive*, Timothy Keller shows readers why it is so important and how to do it, explaining in detail the steps you need to take in order to move on without sacrificing justice or your humanity.

Part 2 Lexham Press Frame explores our relationship with God as a knowing relationship. He writes, "We tend to forget how often in Scripture God performs His mighty acts so that men will 'know' that He is Lord." He thus examines our knowledge of God as it relates to our knowledge of ourselves and of the world in which we live. Reflecting his conviction that theology is the application of Scripture to life in all situations, Frame combines trenchant analysis of theological, apologetical, and epistemological issues with

The second of a two-volume project delving into the doctrine of justification. Michael Horton seeks not simply to recover a clear message of its role in modern Reformed theology, but also to bring a fresh discovery of the gospel in a time when contemporary debates around justification have reignited. The doctrine of justification stands at the center of our systematic reflection on the meaning of salvation and grace as well as our piety, mission, and life together. And yet, within mainline Protestant and evangelical theology, it's often taken for granted or left to gather dust in favor of modern concerns and self-renewal. Volume 2 embarks on the theologically constructive task of investigating the biblical doctrine of justification in light of contemporary exegesis. Taking up the topic from a variety of theological vantage points, Horton engages with contemporary debates in biblical, especially Pauline, scholarship. Part 1 draws out The Horizon of Justification from the Old Testament narratives of Adam and Israel. Part 2 defines The Achievement of Justification in the blood of Christ and

seeks to lay the groundwork for understanding its extent. Part 3 focuses on The Gift of Righteousness, delving into a clear articulation of what justification means, its mechanism, and the role of works on the day of judgement. Part 4 proposes a way forward for Receiving Justification and understanding faith and justification within the broader framework of union with Christ. Engaging and thorough, Justification shows that the doctrine of justification finds its most ecumenically significant starting point and proper habitat in unity with Christ, where the greatest consensus,

past and present, is to be found among Orthodox, Roman Catholic, and Protestant theologies.
