UN Global Compacts is a
concise introduction to the

key concepts, issues, and actors in global migration governance and presents a comprehensive analysis of the New York Declaration for Refugees and Migrants, the Global Compact on Refugees, and the Global Compact for Migration. The book places the declaration and compacts within their historical context, traces the evolution of global migration governance, and evaluates the implementation of the compacts. Ultimately, the global compacts were the result of three wider shifts in

global governance from hard to soft law, from rights to aid, and from Cold War politics to nationalism. The book is an important contribution to international relations and migration studies and provides essential information on the NY declaration and the global compacts, in addition to an examination of the:

- Negotiating blocs and strategies
- Populist backlash to the Global Compact for Migration
- Responsibility sharing for refugee protection
- Human rights of migrants

Principle of non-refoulement

- Comprehensive Refugee Response Framework
- UNHCR, IOM, and the UN Network on Migration

The book will be of interest to practitioners, students, and scholars of international cooperation, global governance, migrants, and refugees, and will be essential reading for graduate and undergraduate courses on international law, international organizations, and migration.

The Development of State Practices in the Modern World

Oxford University Press
Some years ago the Netherlands Research Committee for European Refugee Problems commissioned an investigation into the adjustment problems of foreigners who for various reasons have taken refuge in the Netherlands. This investigation is of great interest. In these times of rapid change we all have our problems of adjustment. How very much greater these problems must be for those who had to leave all they cherished behind them and start all over again in new and strange surroundings. I

wholeheartedly endorse the Committee's initiative in publishing in this monograph the main results of the investigation. These results should be useful in the work of the organizations concerned with refugee welfare. But in wider circles, both in the Netherlands and abroad, this publication should also awaken interest in the refugee question in general and the situation of refugees in the Netherlands in particular. How necessary this interest still is has been shown once again by the recent events in Hungary, which brought untold misery to many

thousands. These Hungarian refugees and countless others who before them fled can best be helped to adjust to the new patterns of life if all who in their daily lives come into contact with them approach them in the right way. But to be able to do that we must first realize the difficulties the refugees have to contend with. Therefore the study of this monograph should be of positive value to many people.

This report analyzes technology uses, needs, and gaps, as well as opportunities for better using technology to help displaced people and improving the operations of responding agencies. Glossary on Migration Routledge A Finalist for the 2019 Kirkus Prize in Nonfiction "Nayeri combines her own experience with those of refugees she meets as an adult, telling their stories with tenderness

and reverence." —The New York Times Book Review "Nayeri weaves her empowering personal story with those of the 'feared swarms' ... Her family's escape from Isfahan to Oklahoma, which involved waiting in Dubai and Italy, is wildly fascinating ... Using energetic prose, Nayeri is an excellent conduit for these heart-rending stories, eschewing judgment and employing care in threading the stories in with her own ... This is a memoir laced with stimulus and plenty of heart at a time when the latter has grown elusive." —Star – Tribune (Minneapolis) Aged eight, Dina Nayeri fled Iran along with her mother and brother and lived in the crumbling shell of an Italian hotel – turned – refugee

camp. Eventually she was granted asylum in America. She settled in Oklahoma, then made her way to Princeton University. In this book, Nayeri weaves together her own vivid story with the stories of other refugees and asylum seekers in recent years, bringing us inside their daily lives and taking us through the different stages of their journeys, from escape to asylum to resettlement. In these pages, a couple fall in love over the phone, and women gather to prepare the noodles that remind them of home. A closeted queer man tries to make his case truthfully as he seeks asylum, and a translator attempts to help new arrivals present their stories to officials. Nayeri confronts notions like "the swarm," and,

on the other hand, “ good ” immigrants. She calls attention to the harmful way in which Western governments privilege certain dangers over others. With surprising and provocative questions, *The Ungrateful Refugee* challenges us to rethink how we talk about the refugee crisis. “ A writer who confronts issues that are key to the refugee experience. ” —Viet Thanh Nguyen, Pulitzer Prize – winning author of *The Sympathizer* and *The Refugees*

Long a recipient of migrants from its surrounding areas, the

Arabian Peninsula today comprises a mosaic of communities of diverse ethnic, cultural, linguistic and religious origins. For decades, while the Gulf Cooperation Council (GCC) states have housed and employed groups of migrants coming and going from Asia, Africa and the West, they have also served as home to the older, more settled communities that have come from neighbouring Arab states. *Arab Migrant Communities in the GCC*

is a unique, original work of scholarship based on in-depth fieldwork shedding light on a topic both highly relevant and woefully understudied. It focuses on the earlier community of Arab immigrants within the GCC, who are among the politically most significant and sensitive of migrant groups in the region. Through its multi-disciplinary lenses of social history, cultural studies, economics, and political science, the book presents original data and

provides analyses of the settlement and continued evolution of migrant Arab communities across the GCC, their work in and assimilation within host societies and labour markets, and their political, economic, social and cultural significance both to the GCC region and to their countries of origin.

Winner of Australia's richest literary award, No Friend but the Mountains is Kurdish-Iranian journalist and refugee Behrouz Boochani's account of his detainment on Australia's notorious Manus Island prison. Composed entirely by text message, this work represents the harrowing experience of stateless and imprisoned refugees and migrants around the world. In 2013, Kurdish-Iranian journalist Behrouz Boochani was illegally

detained on Manus Island, a refugee detention centre off the coast of Australia. He has been there ever since. This book is the result. Laboriously tapped out on a mobile phone and translated from the Farsi. It is a voice of witness, an act of survival. A lyric first-hand account. A cry of resistance. A vivid portrait of five years of incarceration and exile. Winner of the Victorian Prize for Literature, No Friend but the Mountains is an extraordinary

account — one that is disturbingly representative of the experience of the many stateless and imprisoned refugees and migrants around the world. “Our government jailed his body, but his soul remained that of a free man.” — From the Foreword by Man Booker Prize–winning author Richard Flanagan

Namibia, like many other countries in the SADC region, is experiencing a

major shift in internal and international migration patterns to and from the country. The management of these movements is posing particular challenges and problems. The government ministry responsible for management (the Ministry of Home Affairs and Immigration (MHAI)) has sole responsibility for implementing and managing migration policy and legislation. The Ministry also manages visa and permanent and

temporary residence applications and approves work permits. At the same time, the Ministry provides a range of services for Namibian citizens and other legal residents: the registration of births, deaths and marriages; and the issuing of identity documents, passports and emergency travel documents. The MHAI has the unfortunate reputation in Namibia of being one of the most inefficient ministries in the country. a Parliamentary Standing

Committee was appointed in 2005 to look into the operation of the Ministry. The investigation has led to numerous actions by the Ministry to try and improve services. These included enhancing accessibility to services by creating mobile teams that were sent throughout the country to rural communities. Waiting times for ID and passport issue were also improved. Other efforts included full implementation of the Immigration Control Act, a fully computerized passport system and the computerization of other services. The MHA committed itself to constantly reviewing delivery processes and adopting necessary changes, to a policy promoting zero tolerance of corruption and to achieving a reliable and effective human resource management system. The Southern African Migration Project (SAMP), at the request of the Ministry, conducted a systematic survey of the quality of services offered to citizens and non-citizens (the Services Quality Survey or SQS). The main objectives of the SQS were to compare the opinions of officials about the level and quality of services with those of the clients receiving these services; to identify the type of problems and delays that occur in the delivery of services in Namibia and why they occur; to determine the extent to which the level and quality

of services provided meet the expectations of clients; and to develop a set of recommendations to improve the level and quality of service delivery. The project itself was an independently-funded and objective survey, and its findings are presented in this volume.

Do states have a duty to assimilate refugees to their own citizens? Are refugees entitled to freedom of movement, to be allowed to work, to have access to public welfare programs, or to be reunited with family members? Indeed, is

there even a duty to admit refugees at all? This fundamentally rewritten second edition of the award-winning treatise presents the only comprehensive analysis of the human rights of refugees set by the UN Refugee Convention and international human rights law. It follows the refugee's journey from flight to solution, examining every rights issue both historically and by reference to the decisions of senior courts

from around the world. Nor is this a purely doctrinal book: Hathaway's incisive legal analysis is tested against and applied to hundreds of protection challenges around the world, ensuring the relevance of this book's analysis to responding to the hard facts of refugee life on the ground. *License to Travel* United Nations Publications It is increasingly acknowledged that migration issues need a co-ordinated approach, with discussions being undertaken at bilateral

The manual offers complete coverage of all the knowledge needed when practicing conveyancing, including the legal concept of property, and the protection, acquisition, and movement of proprietary interests. Featuring updated sample documentation and precedents illustrating the procedural aspects of conveyancing, this seventh edition has been fully revised to cover legislative changes, new practice directions, developments in property registration, and changes in taxation. References are also included to forthcoming reforms. The principles of

conveyancing practice are clearly explained, making the book an essential reference for both trainees and practitioners in the field.

Handbook on Procedures and Criteria for Determining Refugee Status Morris Communications Cor The European Consultation on Refugees and Exiles is the forum for voluntary agencies working with refugees in Europe. Its handbook is primarily designed for practitioners of refugee law, especially those who

provide legal counsel to refugees or who are active in refugee-assisting agencies in Europe. The introductory chapters examine the UN Refugee Convention (1951) and its Protocol (1967); the Council of Europe's legal conventions; UNHCR; the concept of territorial asylum; refugee categories; non-refoulement; and the principle of 'country of first-asylum'. There are chapters on all but three members of the Council of

Europe: Austria, Belgium, Denmark, France, Germany FR, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey and the United Kingdom (Cyprus, Liechtenstein and Malta are omitted). Each chapter is divided into four parts: pre-asylum; alternatives to asylum; status of asylees and refugees; and, NGOs and useful addresses. The topics discussed in each chapter include: arrival;

screening; determination of refugee status; refusal of asylum; granting of asylum; appeals; pre-asylum status; residence rights; identity and travel documents; employment; civil and political rights; social security; education; language training; housing; naturalization; and, integration.

Welcome to the United States a guide for new immigrants Fiancé & Marriage Visas A Couple's Guide to U.S. Immigration NOLO *The Wayfarer's Handbook* United Nations Publications This book addresses one of the least studied yet most pervasive aspects of modern life--the techniques and mechanisms by which official agencies certify individual identity. From passports and identity

cards to labor registration and alien documentation, from fingerprinting to much-debated contemporary issues such as DNA-typing, body surveillance, and the catastrophic results of colonial-era identity documentation in postcolonial Rwanda, Documenting Individual Identity offers the most comprehensive historical overview of this fascinating topic ever published. The nineteen essays in this volume represent the collaborative

effort of historians, sociologists, historians of science, political scientists, economists, and specialists in international relations. Together they cover a period from the emergence of systematic practices of written identification in early modern Europe through to the present day, and a geographic range that includes Europe, the Soviet Union, North and South America, and Africa. While the book is attuned

to the nefarious possibilities of states' increasing capacity to identify individuals, it recognizes that these same techniques also certify citizens' eligibility for significant positive rights, such as welfare benefits and voting. Unprecedented in subject and scope, Documenting Individual Identity promises to shape a whole new field of research that crosses disciplinary boundaries and is of broad public and academic

significance. In addition to the editors, the contributors are Valentin Groebner, Gérard Noiriel, Charles Steinwedel, Marc Garcelon, Jon Agar, Martine Kaluszynski, Peter Becker, Anne Joseph, Kristin Ruggiero, Andrea Geselle, Andreas Fahrmeier, Leo Lucassen, Pamela Sankar, David Lyon, Gary Marx, Dita Vogel, and Timothy Longman.

RAND Corporation In today's world of constant identification checks, it's difficult to recall that there was ever a time when "proof of identity" was not a part of everyday life. And as anyone knows who has ever lost a passport, or let one expire on the eve of international travel, the

passport has become an indispensable document. But how and why did this form of identification take on such a crucial role? In the first history of the passport in the United States, Craig Robertson offers an illuminating account of how this document, above all others, came to be considered a reliable answer to the question: who are you? Historically, the passport originated as an official letter of introduction addressed to

foreign governments on behalf of American travelers, but as Robertson shows, it became entangled in contemporary negotiations over citizenship and other forms of identity documentation. Prior to World War I, passports were not required to cross American borders, and while some people struggled to understand how a passport could accurately identify a person, others took advantage of this new

document to advance claims for citizenship. From the strategic use of passport applications by freed slaves and a campaign to allow married women to get passports in their maiden names, to the "passport nuisance" of the 1920s and the contested addition of photographs and other identification technologies on the passport, Robertson sheds new light on issues of individual and national identity in modern U.S. history. In this age of

heightened security, especially at international borders, Robertson's *The Passport in America* provides anyone interested in questions of identification and surveillance with a richly detailed, and often surprising, history of this uniquely important document.

The passport is one of the most widespread documents

in worldwide use and yet, paradoxically, it has no basis in law: one state cannot demand another to do something - give access - simply by issuing a document. Yet, by insisting on the requirement of holding a passport the state has provided itself with a neat self-financing, data collection and surveillance system. This well illustrated book tells, for the first time, the story of the passport, from earliest times to the present day. only do so with the authority of the king or emperor. The passport's power to facilitate passage was, then, embodied in it from the beginning. But the passport is also connected with territorial and population control by the State. Today, the machine readable passport enables swift checks against lists of names, enabling customs control to sift out undesirables, and the question of identity cards (used throughout continental Europe) is again an issue in British politics. and revealing the mechanism of the passport system, including the secrets of the machine-readable passport, as well as looking at special diplomatic and royal passports, this book provides an accessible and engaging history of this most widespread of documents
