Long a recipient of migrants
from its surrounding areas, the
Arabian Peninsula today
comprises a mosaic of

communities of diverse ethnic, cultural, linguistic and religious origins. For decades, while the Gulf Cooperation Council (GCC) states have housed and employed groups of migrants coming and going from Asia, Africa and the West, they have also served as home to the older, more settled communities that have come from neighbouring Arab states. *Arab Migrant Communities in the GCC* is a unique, original work of scholarship based on in-depth fieldwork shedding light on a topic both highly relevant and woefully understudied. It focuses on the earlier

community of Arab immigrants within the GCC, who are among the politically most significant and sensitive of migrant groups in the region. Through its multi-disciplinary lenses of social history, cultural studies, economics, and political science, the book presents original data and provides analyses of the settlement and continued evolution of migrant Arab communities across the GCC, their work in and assimilation within host societies and labour markets, and their political, economic, social and cultural significance both to the GCC region and to

their countries of origin.

The Development of State Practices in the Modern World Oxford University Press

The passport is one of the most widespread documents in worldwide use and yet, paradoxically, it has no basis in law: one state cannot demand another

to do something - give access - simply by issuing a document. Yet, by insisting on the requirement of holding a passport the state has provided itself with a neat self-financing, data collection and surveillance system. This well illustrated book tells, for the first time, the story of the passport, from earliest times to the present day. only do so with the authority of the king or emperor. The

passport's power to facilitate passage was, then, embodied in it from the beginning. But the passport is also connected with territorial and population control by the State. Today, the machine readable passport enables swift checks against lists of names, enabling customs control to sift out undesirables, and the question of identity cards (used throughout continental Europe) is

again an issue in British politics. and revealing the mechanism of the passport system, including the secrets of the machine-readable passport, as well as looking at special diplomatic and royal passports, this book provides an accessible and engaging history of this most widespread of documents

You're engaged or married to a U.S. citizen or permanent resident, and all you want is the right to be together in the U.S. Should be easy, right? It's not.

Information can be hard to find, the government bureaucracy isn't helpful, delays are inevitable.

Worst of all, there wasn't an easy-to-understand guidebook to the process -- until now. Fiance &

Marriage Visas makes obtaining a visa and green card as painless as possible. It helps you decide the fastest and best application strategy for you, whether you are married or unmarried, living in the U.S. or overseas. sFiance & Marriage Visas also gives you helpful advice on protecting and renewing your green-card status. The book provides all the forms and checklists you need as tear-outs and on CD-ROM. The 2nd edition covers the new process

of applying for a fiance visa as a married spouse, and takes into account the stricter procedures and security delays imposed since 9/11. Book jacket. [The Movement of Persons Across Borders](#) Oxford University Press, USA UN Global Compacts is a concise introduction to the key concepts, issues, and actors in global migration governance and presents a comprehensive analysis of the New York Declaration for Refugees

and Migrants, the Global Compact on Refugees, and the Global Compact for Migration. The book places the declaration and compacts within their historical context, traces the evolution of global migration governance, and evaluates the implementation of the compacts. Ultimately, the global compacts were the result of three wider shifts in global governance from hard to soft law, from rights to aid, and from Cold War politics to nationalism.

The book is an important contribution to international relations and migration studies and provides essential information on the NY declaration and the global compacts, in addition to an examination of the:

- Negotiating blocs and strategies
- Populist backlash to the Global Compact for Migration
- Responsibility sharing for refugee protection
- Human rights of migrants
 - Principle of non-refoulement

Namibia, like many

other countries in the SADC region, is experiencing a major shift in internal and international migration patterns to and from the country. The management of these movements is posing particular challenges and problems. The government ministry responsible for management (the Ministry of Home Affairs and Immigration (MHA)) has sole responsibility for

implementing and managing migration policy and legislation. The Ministry also manages visa and permanent and temporary residence applications and approves work permits. At the same time, the Ministry provides a range of services for Namibian citizens and other legal residents: the registration of births, deaths and marriages; and the issuing of identity

documents, passports and emergency travel documents. The MHA has the unfortunate reputation in Namibia of being one of the most inefficient ministries in the country. a Parliamentary Standing Committee was appointed in 2005 to look into the operation of the Ministry. The investigation has led to numerous actions by the Ministry to try and improve services. These included

enhancing accessibility to services by creating mobile teams that were sent throughout the country to rural communities. Waiting times for ID and passport issue were also improved. Other efforts included full implementation of the Immigration Control Act, a fully computerized passport system and the computerization of other services. The MHA committed itself

to constantly reviewing delivery processes and adopting necessary changes, to a policy promoting zero tolerance of corruption and to achieving a reliable and effective human resource management system. The Southern African Migration Project (SAMP), at the request of the Ministry, conducted a systematic survey of the quality of services offered to citizens and non-

citizens (the Services Quality Survey or SQS). The main objectives of the SQS were to compare the opinions of officials about the level and quality of services with those of the clients receiving these services; to identify the type of problems and delays that occur in the delivery of services in Namibia and why they occur; to determine the extent to which the level and quality of services provided meet

the expectations of clients; and to develop a set of recommendations to improve the level and quality of service delivery. The project itself was an independently-funded and objective survey, and its findings are presented in this volume.

United States Code RAND Corporation In today's world of constant identification checks, it's difficult to recall that there was ever a time when "proof of identity" was not a part of everyday life. And as anyone knows who has ever lost a passport, or let one expire on the eve of international travel,

the passport has become an indispensable document. But how and why did this form of identification take on such a crucial role? In the first history of the passport in the United States, Craig Robertson offers an illuminating account of how this document, above all others, came to be considered a reliable answer to the question: who are you? Historically, the passport originated as an official letter of introduction addressed to foreign governments on

behalf of American travelers, but as Robertson shows, it became entangled in contemporary negotiations over citizenship and other forms of identity documentation. Prior to World War I, passports were not required to cross American borders, and while some people struggled to understand how a passport could accurately identify a person, others took advantage of this new document to advance

claims for citizenship. From the strategic use of passport applications by freed slaves and a campaign to allow married women to get passports in their maiden names, to the "passport nuisance" of the 1920s and the contested addition of photographs and other identification technologies on the passport, Robertson sheds new light on issues of individual and national identity in modern U.S. history. In this age of heightened security,

especially at international borders, Robertson's *The Passport in America* provides anyone interested in questions of identification and surveillance with a richly detailed, and often surprising, history of this uniquely important document.

Kurdish-Iranian journalist

and refugee Behrouz Boochani 's account of his detainment on Australia 's notorious Manus Island prison. Composed entirely by text message, this work represents the harrowing experience of stateless and imprisoned refugees and migrants around the world. In 2013, Kurdish-Iranian journalist Behrouz Boochani was illegally detained on Manus Island, a refugee detention centre off the coast of Australia. He has been there ever since. This book is the result. Laboriously tapped out on a mobile phone and translated from the Farsi. It is a voice

of witness, an act of survival. A lyric first-hand account. A cry of resistance. A vivid portrait of five years of incarceration and exile. Winner of the Victorian Prize for Literature, *No Friend but the Mountains* is an extraordinary account — one that is disturbingly representative of the experience of the many stateless and imprisoned refugees and migrants around the world. “ Our government jailed his body, but his soul remained that of a free man. ” — From the Foreword by Man Booker Prize – winning author

"Nayeri combines her own experience with those of refugees she meets as an adult, telling their stories with tenderness and reverence. " —The New York Times Book Review
"Nayeri weaves her empowering personal story with those of the ' feared swarms ' . . . Her family 's escape from Isfahan to Oklahoma, which involved waiting in Dubai and Italy, is wildly fascinating . . . Using energetic prose, Nayeri is an excellent

conduit for these heart – rending stories, eschewing judgment and employing care in threading the stories in with her own . . . This is a memoir laced with stimulus and plenty of heart at a time when the latter has grown elusive. ” —Star – Tribune (Minneapolis) Aged eight, Dina Nayeri fled Iran along with her mother and brother and lived in the crumbling shell of an Italian hotel – turned – refugee camp. Eventually she was granted asylum in America. She settled in Oklahoma, then made her way to Princeton University. In this book,

Nayeri weaves together her own vivid story with the stories of other refugees and asylum seekers in recent years, bringing us inside their daily lives and taking us through the different stages of their journeys, from escape to asylum to resettlement. In these pages, a couple fall in love over the phone, and women gather to prepare the noodles that remind them of home. A closeted queer man tries to make his case truthfully as he seeks asylum, and a translator attempts to help new arrivals present their stories to officials. Nayeri

confronts notions like “ the swarm, ” and, on the other hand, “ good ” immigrants. She calls attention to the harmful way in which Western governments privilege certain dangers over others. With surprising and provocative questions, *The Ungrateful Refugee* challenges us to rethink how we talk about the refugee crisis. “ A writer who confronts issues that are key to the refugee experience. ” —Viet Thanh Nguyen, Pulitzer Prize – winning author of *The Sympathizer* and *The Refugees* [The Legal Condition of](#)

Refugees in New Zealand

Oxford University Press

The Palestinian conflict has produced one of the most tragic refugee crises since World War II, with the number of refugees caused by the violence associated with the creation of the State of Israel numbering around 11 million in 2011. The much lauded first edition, in 1998, of *The Status of Palestinian Refugees in International Law* was the first book to comprehensively analyse the legal aspects of the Palestinian refugee crisis, yet the last two decades have seen multiple

developments. New waves of conflict and displacement have affected Palestinian refugees in the Middle East, and there has been Israeli encroachment on Palestinian territory. Hamas has grown, and a schism has formed within the first Palestinian government. The so-called "Arab Spring" has impacted the life, fate, and legal status of thousands of Palestinian refugees. In international legal jurisprudence, change has been similarly rapid. In 2004, the International Court of Justice delivered a crucial advisory opinion on the Separation Wall,

authoritatively elucidating the international legal framework applicable to the Israeli occupation. Numerous international human rights bodies and UN fact-finding missions have added their analysis to the mix. The possibility of the State of Palestine joining the International Criminal Court has spurred discussion relating to the applicability of international criminal law to Palestinian refugees. Clear, compelling, and authoritative, *Lex Takkenberg* and *Francesca Albanese* discuss the status quo both on the ground and in the courts, and pose

future scenarios to come.
