This atlas aims to provide
the reader with key pointers
for a spatial analysis of the
social, economic and
political dynamics at work in
Jordan, an exemplary
country of the Middle East
complexities. Being a
product of seven years of
scientific cooperation
between Ifpo, the Royal
Jordanian Geographic
Center and the University of
Jordan, it includes the
contributions of 48
European, Jordanian and
International researchers. A
long historical part followed
by sections on demography,
economy, social disparities,
urban challenges and major
town and country planning,

sheds light on the formation of Jordanian territories over time. Jordan has always been looked on as an exception in the Middle East due to the political stability that has prevailed since the country's Independence in 1946, despite the challenge of integrating several waves of Palestinian, Iraqi and - more recently - Syrian refugees. Thanks to this stability and the peace accord signed with Israel in 1994, Jordan is one of the first countries in the world for development aid per capita.

Nobel Laureate and two-time Booker prize-winning author of *Disgrace* and *The Life and Times of Michael K*, J. M. Coetzee tells the remarkable story of a nation gripped in brutal apartheid in his Sunday Express Book of the Year award-winner *Age of Iron*. In Cape Town, South Africa, an elderly classics professor writes a letter to her distant daughter, recounting the strange and disturbing events

of her dying days. She has been opposed to the lies and the brutality of apartheid all her life, but now she finds herself coming face to face with its true horrors: the hounding by the police of her servant's son, the burning of a nearby black township, the murder by security forces of a teenage activist who seeks refuge in her house. Through it all, her only companion, the only person to whom she can confess her mounting anger and despair, is a homeless man who one day appears on her doorstep. In *Age of Iron*, J. M. Coetzee brings his searing insight and masterful control of language to bear on one of the darkest episodes of our times. 'Quite simply a magnificent and unforgettable work' *Daily Telegraph* 'A superbly realized

novel whose truth cuts to the bone' *The New York Times* 'A remarkable work by a brilliant writer' *Wall Street Journal* South African author J. M. Coetzee was awarded the Nobel Prize for Literature in 2003 and was the first author to win the Booker Prize twice for his novels *Disgrace* and *The Life and Times of Michael K*. His novel, *Foe*, an exquisite reinvention of the story of *Robinson Crusoe* is also available in Penguin paperback.

A vivid, dramatic, and eye-opening historical narrative, *The Man in the Iron Mask* reveals the story behind the most enduring mystery of Louis XIV's reign. *The Man in the Iron Mask* has all the hallmarks of a thrilling adventure story: a glamorous and all-powerful king, ambitious ministers, a cruel and despotic jailor, dark and sinister dungeons—and a secret prisoner. It is easy to forget that this story, made famous by

Alexandre Dumas, is that of a real person, Eustache Danger, who spent more than thirty years in the prison system of Louis XIV's France—never to be freed. This narrative brings to life the true story of this mysterious man and follows his journey through four prisons and across decades of time. It introduces the reader to those with whom he shared his imprisonment, those who had charge of him, and those who decided his tragic fate. The *Man in the Iron Mask* reveals one of the most enduring mysteries of Louis XIV's reign; but it is, above all, a human story. Using contemporary documents, this book shows what life was really like for state prisoners in seventeenth-century France—and offers tantalising insight into why this mysterious man was arrested and why, several years later, his story would become one of France's most intriguing legends that still sparks debate and controversy today.

“ An utterly absorbing account of one of history ' s most momentous battles ” (Forbes) that not only changed the Civil War but the future of all sea power—from acclaimed popular historian Richard Snow, who “ writes with verve and a keen eye ” (The New York Times Book Review). No single sea battle has had more far-reaching consequences than the one fought in Hampton Roads,

Confederacy, with no fleet of its own, took a radical step to combat the Union blockade, building an iron fort containing ten heavy guns on the hull of a captured Union frigate named the Merrimack. The North got word of the project, and, in panicky desperation, commissioned an eccentric inventor named John Ericsson to build the Monitor, an entirely revolutionary iron warship. Rushed through to completion in just one hundred days, it mounted only two guns, but they were housed in a shot-proof revolving turret. The ship hurried south from Brooklyn, only to arrive to find the Merrimack had already sunk half the Union fleet—and would be back to finish the job. When she returned, the Monitor was there. She fought the Merrimack to a standstill, and, many believe, saved the Union cause. As soon as word of the fight spread, Great Britain—the foremost sea power of the day—ceased work on all wooden ships. A thousand-year-old tradition ended and the naval future opened. Richly illustrated with photos, maps, and engravings, Iron Dawn “ renders all previous accounts of the encounter between the

Monitor and the Merrimack as obsolete as wooden war ships ” (The Dallas Morning News). Richard Snow brings to vivid life the tensions of the time in this “ lively tale of science, war, and clashing personalities ” (The Wall Street Journal).

Iron Kissed Penguin UK

At the outbreak of the Civil War, North and South quickly saw the need to develop the latest technology in naval warfare, the ironclad ship. After a year-long scramble to finish first, in a race filled with intrigue and second guessing, blundering and genius, the two ships -- the Monitor and the Merrimack -- after a four-hour battle, ended the three-thousand-year tradition of wooden men-of-war and ushered in "the reign of iron." In the first major work on the subject in thirty-five years, novelist, historian, and tall-ship sailor James L. Nelson, acclaimed author of the Brethren of the Coast trilogy, brilliantly recounts the story of these magnificent ships, the men who built and fought them, and the extraordinary battle that made them legend.

A dual-sided history of the Revolutionary War examines the conflict from both the colonial and British sides, documenting the nearly violent political disagreements in Parliament, as well as the American-sympathetic pacifist media criticism of King George III that may have played a major role in the war's outcome.
