Study Guide for CTET Paper 1 (Class 1 - 5 teachers) with Past Questions 5th Edition Macmillan

Discrete-trials teaching, or DTT, is a very important teaching technique developed by behavior analysts. The DTT Manual has taught numerous groups of individuals to conduct DTT with children with autism in as quickly as 6 hours. The manual is the product of the joint work of Dr. Daniela Fazio, PhD, BCBA-D and Dr. Garry L. Martin, PhD, Distinguished Professor of Psychology. The manual addresses an area of much need in the field of autism treatment; effective and efficient training for parents and professionals. It was written with them in mind and it has been empirically tested several times, with several university students, paraprofessionals, and parents. It will be easy to navigate for individuals with a high school diploma, regardless of any prior experience in psychology or special education.

Essential Understanding of Psychology Macmillan

This guide gives an overview of the curriculum arrangements which took effect in August 1995. The book outlines the main changes to the original National Curriculum and gives examples of ways to teach the new curriculum, together with enquiry tasks to take the teacher forward. It also covers each of the subjects of the revised National Curriculum, locating them within a context of whole curriculum planning. Looking at issues of differentiation, the book explores those additional elements of the curriculum, such as cross curricular themes and drama, that primary schools will wish to cover.

For those growing up with an intellectual disability or autism, comfortable, safe and independent travel will prove an invaluable life skill. The key to pursuing fulfilling work and leisure activities and developing as an individual, it also brings a liberating level of self-sufficiency and reassurance of equality within society. Arriving at this goal can be daunting. Dr Gallimore's straightforward five-step system will guide parents and professionals through successful training for children of any age and ability. Focusing on understanding each child's individual goals and challenges, it gives you the 'ingredients' needed to fully prepare for each journey in advance, and shows how to judge when to step back and let the child progress alone. Addressing specific fears and obstacles that make travel difficult for children with learning difficulties, it sets out all the precautions necessary to safeguard children and others as they learn to reach their chosen destinations. Clear-cut and far-reaching, this book is enriched by Dr Gallimore's extensive experience as a psychologist, mobility specialist and travel-trainer. It is a heartening resource and will be necessary reading for anyone working with a child to get them on their path to independent travel.
