Considering the pervasive immorality and high divorce rate of our contemporary Christian culture, we evidently need a biblically based, theologically compelling, practical understanding of sex, dating, and relationships. Pastors Gerald Hiestand and Jay Thomas counteract this problem with their paradigm-shifting view of purity and relationships—a view that challenges even the basic assumptions of evangelical subculture. Unlike most books on dating, this one cuts straight to the heart of dating relationships, asserting with confidence that the line must be drawn at “no sexual activity” whatever. Few have dared to define and apply the Bible’s understanding of purity in premarital relationships to this degree, but Heistand and Thomas have done it. Furthermore, both authors are vocational pastors who communicate regularly with the target audience and have a proven ability to express biblical truth in a winsome and compelling manner. Sex, Dating, and Relationships adds a new, almost provocative voice to the conversation that, with straightforward theological insight, pleads with Christians to get serious about honoring Christ with their sexuality.

12 Gospel Principles for Leadership in the Church

Ballantine Books

The church is experiencing a leadership crisis. What can we do to prevent pastors from leaving the ministry? For every celebrity pastor exiting the ministry in the

spotlight, there are many more lesser-known pastors leaving in the shadows. Pastor and best-selling author Paul David Tripp argues that lurking behind every pastoral failure is the lack of a strong leadership community. Tripp draws on his decades of ministry experience to give churches twelve gospel principles necessary to combat this leadership crisis. Each of these principles, built upon characteristics such as humility, dependency, and accountability, will enable new and experienced leaders alike to focus their attention on the ultimate leadership model: the gospel. Redeeming the Realities of Marriage Simon and Schuster

This book is a practical guide to using the science of attachment and relationships to find the right life partner. If you were brought up in the Western world, you've been trained on fairy tales of love and relationships that are misleading at best, and at worst have you making mistake after mistake in starting relationships with the wrong kinds of people who will waste your time and keep you from finding a loyal partner. Science has the answer! Or at least a guide to save you the time and effort of discovering for yourself how many wrong types of romantic partners there are. Reading this book will help you recognize the signs of some of the syndromes that prevent people from being good partners. We'll go through those syndromes and point out some of the signs. Those little red flags you sometimes notice when you are getting to know someone? Often they speak loud and clear once you understand the types, and you can decide immediately to run away or approach with caution those who show them. If you're young and just starting to look for a partner, good news-the world is swarming with well-adjusted, charming matches for you, if you know how to recognize them. The bad news: you are inexperienced and you may not recognize the right type of person when you date them. Many people expect to experience an immediate sense of excitement, an overwhelming rush of attraction, and to fall in love rapidly and equally with someone who feels the same. This rarely happens, and when it does it usually ends badly! And expecting it will cause you to let go of people who are steady, loving, and attentive, if you had given them a chance. So once you've identified someone who makes you laugh, answers your messages, and is there for you when you want them, don't make the mistake of tossing them aside for the merely good-looking, sexy, or intriguing stranger. If you're older, bad news: while you were spending time and effort on relationships you were hoping would turn out better, or even happily nestled in a good relationship or two, most of the secure, reliable, sane people in your age group got paired off. They're married or happily enfamilied, and most of the people your age in the dating pool are tragically unable to form a good long-term relationship. You should always ask yourself, "why is this one still available?"-there may be a good answer (recently widowed or left a long-term relationship), or it may be that this person has just been extraordinarily unlucky in having over twenty short relationships in twenty years (to cite one case!) But it's far more likely you have met someone with a problematic attachment style. As you age past 40, the percentage of the dating pool that is able to form a secure, stable relationship drops to less

than 30% [1]; and since it can take months of dating to understand why Mr. or Ms. SeemsNice is really the future ex-partner from Hell, being able to recognize the difficult types will help you recognize them faster and move on to the next. This book outlines the basics (which might be all you need), and points you toward more resources if you want to understand more about your problem partner. If you're wondering if the guy or girl you've been hanging out with might not be quite right, this is the place to match those little red flags you've noticed with known bad types. And by getting out fast, you can avoid emotional damage and wasted time, and get going on finding someone who's really right for you. Study all of the bad types and you'll detect them before even getting involved. Or you could be one of the few people who recognizes their own problems in one of these types. There are study materials and plans of action for you, too. If you've had lots of relationships and they all seem to go wrong, the common factor is you! Your task is to make yourself into a better partner - a goal that even the most evolved of us can always work toward.

Reclaiming Real Friendship in a Culture of Confusion Crossway Books

Teenage hassles that disrupt parents' lives? Or prime opportunities to connect with, listen to, and nurture our kids? Paul Tripp uncovers the heart issues affecting parents and their teenagers during the often chaotic adolescent years. With wit, wisdom, humility, and compassion, he shows parents how to seize the countless opportunities to deepen communication, learn, and grow with their teenagers. *Relationships* Createspace Independent Publishing Platform Relationships are messy. In this deeply insightful book by Paul David Tripp and Timothy S. Lane, readers are presented with the power of grace to redeem and restore

relationships. Through straightforward language, the authors walk through the relational disappointments we all suffer by offering deep, Christ-centered thought and broad counseling experience. Relationships dwells on fresh hope and practical answers, exposing deeper issues that keep relationships less than they are designed to be. Christ showed us nothing matters more to God than how we love one another, yet so many of us settle for too little in our relationships. This invaluable resource convincingly testifies God's power to restore relationships by working within the following: Resolving conflicts Turning tough conversations to positive conversations Expressing and sharing real love that comes from forgiveness; Maturing casual relationships into deep friendships Applauding strengths instead of dwelling on weaknesses Making way for honesty without being mean or unkind Rather than presenting new or sophisticated techniques to make relationships flourish, the authors instead focus on the basic character qualities that can only be formed in the heart by the gospel. This book is not a simplistic how-to manual on relationships, offering lists to check off from theoretical procedures based on someone else's idea of a model relationship. Rather, it is about the life-changing work of Christ and the power and wisdom God graciously uses to redeem relationships. We are called to be people of great character so when we do come in contact with the world, our character shapes and influences those around us. Even though relationships are messy, God uses them to rescue us from ourselves.

Change and Your Relationships Crossway “An engrossing tale [that] provides plenty of food for thought” (People, Best New Books pick), this playful, wise, and profoundly moving second novel from the internationally bestselling author of *How Proust Can Change Your Life* tracks the beautifully complicated arc of a romantic partnership. We all know the headiness and excitement of the early days of love. But what comes after? In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children—but no long-term relationship is as simple as “happily ever after.” The *Course of Love* explores what happens after the birth of love, what it takes to maintain, and what happens to our original ideals under the pressures of an average existence. We see, along with Rabih and Kirsten, the first flush of infatuation, the effortlessness of falling into romantic love, and the course of life thereafter. Interwoven with their story and its challenges is an overlay of philosophy—an annotation and a guide to what we are reading. As The New York Times says, “The *Course of Love* is a return to the form that made Mr. de Botton’s name in the mid-1990s....love is the subject best suited to his obsessive aphorizing, and in this novel he again shows off his ability to pin our hopes, methods, and insecurities to the page.” This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term. The result is a sensory experience—fictional, philosophical,

psychological—that urges us to identify deeply with these characters and to reflect on his and her own experiences in love. Fresh, visceral, and utterly compelling, *The Course of Love* is a provocative and life-affirming novel for everyone who believes in love. “There’s no writer alive like de Botton, and his latest ambitious undertaking is as enlightening and humanizing as his previous works” (Chicago Tribune).

A Daily Gospel Devotional P & R Publishing

"What the heck is my partner thinking?" is a common refrain in romantic relationships, and with good reason. Every person is wired for love differently, with different habits, needs, and reactions to conflict. The good news is that most people's minds work in predictable ways and respond well to security, attachment, and rituals, making it possible to actually neurologically prime the brain for greater love and fewer conflicts. *Wired for Love* is a complete insider's guide to understanding a partner's brain and promoting love and trust within a romantic relationship. Readers learn ten scientific principles they can use to avoid triggering fear and panic in their partners, manage their partners' emotional reactions when they do become upset, and recognize when the brain's threat response is hindering their ability to act in a loving way. By learning to use simple gestures and words, readers can learn to put out emotional fires and help their partners feel more safe and secure. The no-fault view of conflict in this book encourages readers to move past a ""warring brain"" mentality and toward a more cooperative ""loving brain"" understanding of the relationship. Based in the sound science of neurobiology, attachment theory, and emotion regulation research, this book is essential reading for couples and others interested in understanding the complex dynamics at work behind love and trust in intimate relationships.

The Pursuit of Joy in Singleness and Dating Thomas Nelson

After traveling the globe and speaking to thousands of churches worldwide, Paul David Tripp has discovered a serious problem within pastoral culture. He is not only concerned about the spiritual life of the pastor, but also with the very community of people that trains him, calls him, relates to him, and restores him if necessary. *Dangerous Calling* reveals the truth that the culture surrounding our pastors is spiritually unhealthy—an environment that actively undermines the wellbeing and efficacy of our church leaders and thus the entire church body. Here is a book that both diagnoses and offers cures for issues that impact every member and church leader, and gives solid strategies for fighting the all-important war that rages in our churches today.

When couples go to a marriage counselor there are three possible outcomes: (1) they get a fresh start, (2) they stay together and "cope with" a tense or sour marriage, or (3) they separate. Every couple wants the first outcome. They want to have a fresh start and be happy together. If they can't get a fresh start, they will jump to the third choice-separation--because they don't want the second. They have already been coping and are tired of it. Problems and adversity are not the crux of marital discord. All couples face adversity, but it doesn't cause problems for harmonious couples. Couples with satisfying marriages don't "cope" with their lives and with each other. They don't work on their marriages. The strength of their marriages lies not in their ability to cope with their problems, but in their ability to keep their bearings and to stay close. This book shows couples how to do that.

What does it take for lasting change to take root in your life? If you've ever tried, failed, and wondered what you could do differently, you need to read *How People Change*. In the book, biblical counseling experts Timothy S. Lane and Paul David Tripp explain the biblical pattern for change in a clear, practical way you can apply to the challenges of daily life. But change involves much more than just a biblical formula: you will see how God is at work to make you the person you were

created to be. That powerful, loving, redemptive relationship is at the heart of all positive change you experience. A changed heart is the bright promise of the gospel, but many of us wonder if we'll ever see lasting change take root in our lives. When the Bible talks about the gift of a new heart, it doesn't mean a heart that is immediately perfected, but a heart that is capable of being changed. Jesus's work on the cross targets our hearts, our core desires and motivations, and when our hearts change, our behavior changes. How People Change targets the root of a person: the heart. When our core desires and motivations change, only then will behavior follow. Using a biblical model of Heat, Thorns, Cross, and Fruit, Paul David Tripp and Timothy S. Lane reveal how lasting change is possible. You don't need to be stuck anymore. In Christ, you are a new creation. The old has gone and the new has come. Includes a foreword by David Powlison.
