Handloading Lulu.com Illustrated Edition of 1959 in Facsimile. This is the first edition of one of the classic descriptions of wildcat cartridges, first published in 1949. Though revised and updated in 1962, this is Ackley's first effort at tackling the loading data, theory, and practice of wildcat cartridges. A wildcat cartridge, often shortened to wildcat, is a custom cartridge for which ammunition and/or firearms are not mass-produced. These cartridges are often created in order to optimize a certain performance characteristic (such as the power, size, or efficiency) of an existing commercial cartridge. Developing and using wildcat cartridges does not generally serve a purpose in military or law enforcement; it is more a hobby for serious shooting, hunting, gunsmithing and

handloading enthusiasts, particularly in the United States.

This new book, was a big seller at the 1997 National Pistol Matches at Camp Perry, Ohio. It offers a scientific approach to pistol shooting training. The revolutionary new pistol training methods described in this book are based on science & in accordance with the immutable laws of gravity & motion here on earth. This book belongs in the library of every gun owner around the world. One shooter wrote, "I borrowed a copy of **SUCCESSFUL PISTOL SHOOTING** from a competitive shooting acquaintance of mine & I am enjoying reading it. I have read many of the publications mentioned in your book & I agree that pistol shooting is made out to be all together too complicated. Your approach to competitive pistol shooting is refreshing. I would also like a copy of your book sent to my friend. His ten year old son is being loaded down with too much information from the local competitive shooters & not enjoying it. I think it would be a lifelong benefit to my friend & his family if they were to own a copy of your book." ## Accuracy

A how-to manual guide to the reloading of very accurate small arms ammunition, primarily for rifle shooters. Precision Handloading John Nosler - Going Ballistic is the story of John Nosler - a hunter, innovator and self-taught ballistics engineer. Born in California, he came of age in the Great Depression and raced his home-built cars on the dirt tracks of Huntington Beach and Pomona. From California, he moved to Oregon and embarked on a legendary big game hunting career. He first hunted moose in Canada in the 1940s and recognized the need for a projectile that would stand up to the velocity generated by the new magnum rifle cartridges. When hunters want a
