Something has gone seriously wrong with the American economy. The American economy has experienced considerable growth in the last 30 years. But virtually none of this growth has trickled down to the average American. Incomes have been flat since 1985. Inequality has grown, and social mobility has dropped dramatically. Equally troubling, these policies have been devastating to both American productivity and our long-term competitiveness. Many reasons for these failures have been proposed. Globalization. Union greed. Outsourcing. But none of these explanations can address the harsh truth that many countries around the world are dramatically outperforming the U.S. in delivering broad middle-class prosperity. And this is despite the fact that these countries are more exposed than America to outsourcing and globalization and have much higher levels of union membership. In *What Went Wrong*, George R. Tyler, a veteran of the World Bank and the Treasury Department, takes the reader through an objective and data-rich examination of the American experience over the last 30 years. He provides a fascinating comparison between the America and the experience of the "family capitalism" countries: Australia, Austria, Belgium, Denmark, France, Germany, the Netherlands, and Sweden. Over the last 30 years, they have outperformed the U.S. economy by the only metric that really matters—delivering better lives for their citizens. The policies adopted by the family capitalist countries aren't socialist or foreign. They are the same policies that made the U.S. economy of the 1950s and 1960s the strongest in the world. *What Went Wrong* describes exactly what went wrong with the American economy, how countries around the world have avoided these problems, and what we need to do to get back on the right track.

The Murder on the Links is Agatha Christie 's second Poirot novel, featuring the brilliant Belgian detective and his sidekick, Captain Hastings. In this characteristic whodunit, Poirot is summoned to a seaside town in northern France by a desperate letter from a rich businessman, who fears that he is being stalked. Poirot arrives to find the businessman already dead, his body lying facedown in an open grave on a golf course, a knife in his back—the victim of a mysterious murder. Over the coming days Poirot clashes wits with an arrogant Parisian detective, Giraud, while Hastings finds himself pining after a beautiful but shadowy American expatriate known to him only as " Cinderella. " Together, Poirot and Hastings unravel the intricate web of mystery and deceit behind the murder. Christie based this

mystery after a real-life French murder case, and it 's believed that this is the first detective novel to use the phrase " the scene of the crime. " This book is part of the Standard Ebooks project, which produces free public domain ebooks.

*Covering for the Bosses: Labor and the Southern Press* probes the difficult relationship between the press and organized labor in the South from the past to the present day. Written by a veteran journalist and first-hand observer of the labor movement and its treatment in the region's newspapers and other media, the text focuses on the modern South that has evolved since World War II. In gathering materials for this book, Joseph B. Atkins crisscrossed the region, interviewing workers, managers, labor organizers, immigrants, activists, and journalists, and canvassing labor archives. Using individual events to reveal the broad picture, *Covering for the Bosses* is a personal journey by a textile worker's son who grew up in North Carolina, worked on tobacco farms and in textile plants as a young man, and went on to cover as a reporter many of the developments described in this book. Atkins details the fall of the once-dominant textile industry and the region's emergence as the Sunbelt South. He explores the advent of Detroit South with the arrival of foreign automakers from Japan, Germany, and South Korea. And finally he relates the effects of the influx of millions of workers from Mexico and elsewhere. *Covering for the Bosses* shows how, with few exceptions, the press has been a key partner in the powerful alliance of business and political interests that keep the South the nation's least-unionized region. Joseph B. Atkins is a widely published journalist, professor of journalism at the University of Mississippi, and editor of *The Mission: Journalism, Ethics, and the World*. Stanley Aronowitz is professor of sociology and cultural studies at the Graduate Center of the City University of New York. He is the author, most recently, of *Left Turn: Forging a New Political Future*; *The Knowledge Factory*; and *How Class Works*.

New York Times Bestseller: This retelling of the Greek myth of Theseus, king of Athens, is "one of the truly fine historical novels of modern

times" (The New York Times). In myth, Theseus was the slayer of the child-devouring Minotaur in Crete. What the founder-hero might have been in real life is another question, brilliantly explored in *The King Must Die*. Drawing on modern scholarship and archaeological findings at Knossos, Mary Renault's Theseus is an utterly lifelike figure—a king of immense charisma, whose boundless strivings flow from strength and weakness—but also one steered by implacable prophecy. The story follows Theseus's adventures from Troizen to Eleusis, where the death in the book's title is to take place, and from Athens to Crete, where he learns to jump bulls and is named king of the victims. Richly imbued with the spirit of its time, this is a page-turner as well as a daring act of imagination. Renault's story of Theseus continues with the sequel *The Bull from the Sea*. This ebook features an illustrated biography of Mary Renault including rare images of the author.
