fighting for veterans' rights and their insider's view of the Department of Veterans Affairs to obtain the benefits your client earned. The Veterans Benefits Manual contains dozens of effective, battle-tested advocacy tips for veterans and advocates along with all the latest developments in veterans law. 2021-2022 Edition Editors: National Veterans Legal Services Program (NVLSP) Barton F. Stichman, Executive Director and co-founder of the National Veterans Legal Services Program Ronald B. Abrams, Special Counsel and Former Joint Executive Director of the National Veterans Legal Services Program Richard V. Spataro, Director of Training and Publications of the National Veterans Legal Services Program Stacy A. Tromble, Director of Court of Appeals for Veterans Claims Litigation of the National Veterans Legal Services Program The 2021-2022 edition of the Veterans Benefits Manual has been thoroughly updated with the important developments in veterans' law over the past year. The most significant new information in the recent edition of the Manual has been about the Veterans Appeals Improvement and Modernization

---

Act of 2017 (AMA), which took effect on February 19, 2019. There is updated information in the 2021-2022 edition of the Manual about how the new modernized review system has been operating in practice. Most of that information appears in Chapters 12, 13, and 16. Highlights of the other updates include advocacy essentials such as: New advice for deciding which options to pursue to overcome BVA decisions denying legacy claims and claims subject to the new AMA system (Sections 14.1.1 and 14.1.2); Discussion of the recent changes to VA policies and procedures due to the COVID-19 pandemic (throughout Manual); A new section about how the BVA conducts virtual hearings (Section 13.4.3); New sections explaining why thousands of Vietnam veterans and their survivors are now entitled to millions of dollars in additional retroactive compensation for Agent Orange-related diseases (Sections 8.10, 8.11); Discussion of the VA's revisions to the disability rating schedule for musculoskeletal conditions (Section 5.2.9); A new section discussing the enhanced hearing procedures adopted by the Army

---

Discharge Review Board and the thousands of Army veterans now entitled to have the Board reconsider their less than Honorable Discharges under more liberal review standards (Section 21.3.5); A new section about how military retirees become entitled to retroactive military retired pay as a direct result of a VA decision granting retroactive VA benefits (Section 8.12); Updated analysis of the rules governing entitlement to retroactive benefits based on service department records being added to the VA claims file after a final claim denial (Section 8.8.9); New guidance regarding entitlement to accrued benefits to reimburse individuals who bore the expense of a veteran's last illness or burial (Section 7.3.1.1.2); and Updates on eligibility for VA's Comprehensive Assistance for Family Caregivers and advocacy tips for those applying for monthly stipends (Section 10.13). Updated information about the duty to assist activities transferred from the Joint Services Records Research Center to the VA Records Research Center (Section 18.4); Advocacy tips for appealing BVA decisions that violate or improperly rely on provisions of

---

the VA Adjudication Procedures Manual M21-1 (Section 14.5.9); Discussion of the recent case law on extraschedular disability ratings and schedular ratings for ankylosis of joints (Sections 5.3 and 5.2.1.6);

Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities. Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects.

Beyond the challenges of generating the proper information on these

impacts, there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring. The main complexities lie in understanding the interactions of social-ecological systems at different scales and how they varied through time in response to policy and other processes. This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input, which focuses on FSC certification of natural tropical forests. More specifically, the evaluation program aims at building the evidence base of the empirical biophysical, social, economic, and policy effects that FSC

---

certification of natural forest has had in Brazil as well as in other tropical countries. The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices in Brazil. As such, the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties, from institutions and organizations, to communities and individuals.

Emerging technologies have always played an important role in armed conflict. From the

crossbow to cyber capabilities, technology that could be weaponized to create an advantage over an adversary has inevitably found its way into military arsenals for use in armed conflict. The weaponization of emerging technologies, however, raises challenging legal issues with respect to the law of armed conflict. As States continue to develop and exploit new technologies, how will the law of armed conflict address the use of these technologies on the battlefield? Is existing law sufficient to regulate new technologies, such as cyber capabilities, autonomous weapons systems, and artificial intelligence? Have emerging technologies fundamentally altered the way we should understand concepts such as law-of-war precautions and the principle of distinction? How can we ensure compliance and accountability in light of technological advancement? This volume of the Lieber Studies explores these critical questions while

highlighting the legal challenges--and opportunities--presented by the use of emerging technologies on the battlefield.

When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars

---

are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.
