The Dead Bedroom Fix Lara
Briden

In this unique blend of self-help and moral philosophy, perfect for fans of Gretchen Rubin's *The Happiness Project* or Dan Harris' *10% Happier*, talk-radio host Dennis Prager

shows us that happiness isn't just a value—it's a moral obligation. When you ask people about their most cherished values, "happiness" is always at the top of the list. In this enduring happiness manifesto, Prager examines how happiness not only makes us better people, but has an effect on the lives of everyone around us—providing them with a positive environment in which to thrive and be happy themselves. Achieving that happiness won't be easy, though: to Prager, it requires a continuing process of counting your blessings and giving up any expectations that life is supposed to be wonderful. "Can we decide to be satisfied with what we have?" he asks. "A poor man who can make himself satisfied with his portion will be happier than a wealthy man who does not allow himself to be satisfied." Prager echoes other political commentators in complaining that too many people today see themselves as victims; he submits that the only way to achieve your desires is to take responsibility for your life rather than blaming others. If you're willing to put some thought into achieving a happier outlook, you will find plenty to mull over in *Happiness Is a*

Serious Problem.

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV

tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.'

running happily again. Covered: Regula, Baduf, Hubert Herr, Schatz, Rack & Snail, Count Wheel, Bellows and Weights, Movement ID, Cleaning and Oiling, Complete Step by Step Repair Procedure.
