A faithful reproduction of the
1970 Floyd Clymer publication
of the official Honda Factory
Workshop Manual specific to the
n00 50cc Super Cub series of
motorcycles. This manual
includes all of the data that you
would expect from a factory
publication for the repair and
overhaul of all major and minor
mechanical and electrical
components. It also includes a
comprehensive trouble shooting
section plus tables of technical
data, tolerances and fits making
it an invaluable resource for
collectors and restorers of these
classic Honda motorcycles.
There are 136 illustrations and

each procedure is explained in a
step-by-step method using an
appropriate illustration. The
translation from Japanese to
English is, at times, a little quirky
but the illustrations make up for
any difficulty in understanding
what needs to be done! There are
separate sections that deal with
the repair and overhaul
procedures for the engine,
transmission, wheels and brakes,
front forks, frame and carburetor,
plus a detailed electrical service
section. This is a - must have -
reference for any Honda
enthusiast and would certainly
assist in helping any potential
purchaser better understand the
inner workings prior to
purchasing one of these classic
motorcycles. Out-of-print and
unavailable for many years, this
book is highly sought after on the
secondary market and we are
pleased to be able to offer this
reproduction as a service to all
Honda enthusiasts worldwide.
