Trailers are a fact of life in the horse world. Sooner or later, everyone who owns a horse will have to deal with a horse trailer in order to haul to shows, races, hunts, and perhaps even to veterinary clinics. Up to now, when horse owners wanted information on trailers they had to rely on magazine articles or word-of-mouth recommendations. Not anymore. *The Complete Guide to Buying, Maintaining, and Servicing a Horse Trailer* is the first and only book for both owners and buyers of horse trailers. It's a resource that gives prospective buyers, faced with hundreds of models to choose from, the means to make the right choice. It's a manual that gives current owners information on maintaining and caring for their trailers. Foremost, they will learn from lifelong horsewoman Neva Scheve and Thomas G. Scheve, both respected industry insiders, that the safety and comfort of the horse should always be the primary concern. This authoritative book, with more than 175 illustrations, addresses a number of important topics, including how to: * Determine whether to buy a new or a used trailer. * Ask the right questions of the dealer or owner. * Weigh the options and select the best model for your needs. * Evaluate tow vehicles and hitches. * Master pre-trip preparations. * Care for your current trailer. * Load, drive, and use a trailer safely. * Deal with typical exterior, interior, electrical and mechanical problems. * Assess the work of repairmen if the job is more than you can handle. "Complete" is not just an idle word: this book has an appendix that gives the names and addresses of the major trailer manufacturers to contact for literature. In all, the Scheves have given horse owners everything they need to make an informed purchasing decision that will benefit themselves and their horses.

This is a fascinating, well illustrated and thoroughly documented response to the relentless anti-Christian propaganda that has been generated by Muslim and Marxist groups and by Hollywood film makers. As Karl Marx declared: "The first battlefield is the re-writing of History " "Peter knows first hand the nature of the enemy the West is facing and exposes it

brilliantly in this book on Islam. He begins by documenting the close relationship between Islam and slavery and then chapter by chapter reveals the terrible cost of thirteen centuries of Islamic invasion, conquest and brutalisation. This is a book that every Christian should read and pass along to friends; and one that every home-schooling family should require as part of their children's curriculum." Dr. Brian M. Abshire "Dr. Peter Hammond cuts through layers of misinformation and uncovers astonishing historical facts and details long buried by Islamic revisionists. You'll find out their real agenda for tomorrow by discovering what they actually did yesterday - plus a field-tested plan of how to win Muslims to Christ." Rev. Bill Bathman "For the sake of this generation, and coming ones, someone had to do what Dr. Peter Hammond has just done; setting the record straight on the different role players in the slave trade." Rev. Fano Sibisi "Slavery, Terrorism & Islam, is must reading to all those who want to find out the roots of the Terrorism that is threatening global security." Rev. Jeffreys Kayanga

This book is published open access under a CC BY 4.0 license. This book presents an ethnographic study of how grassroots activism in Venezuela during the Ch á vez presidency can be understood in relation to the country's history as a petro-state. Taking the contested relationship between the popular sectors and the Venezuelan state as a point of departure, Iselin Å sedotter Str ø nen explores how notions such as class, race, state, bureaucracy, popular politics, capitalism, neoliberalism, consumption, oil wealth, and corruption gained salience in the Bolivarian process. A central argument is that the Bolivarian process was an attempt to challenge the practices, ideas, and values inherited from Venezuela's historical development as an oil-producing state. Drawing on rich ethnographic material from Caracas' shantytowns, state institutions, as well as everyday life and public culture, Str ø nen

explores the complexities and challenges in fostering deep social and political change. Manual of Instructions for the Survey of Dominion Lands Vintage

Scholastic Metaphysics provides an overview of Scholastic approaches to causation, substance, essence, modality, identity, persistence, teleology, and other issues in fundamental metaphysics. The book interacts heavily with the literature on these issues in contemporary analytic metaphysics, so as to facilitate the analytic reader's understanding of Scholastic ideas and the Scholastic reader's understanding of contemporary analytic philosophy. The Aristotelian theory of actuality and potentiality provides the organizing theme, and the crucial dependence of Scholastic metaphysics on this theory is demonstrated. The book is written from a Thomistic point of view, but Scotist and Suarezian positions are treated as well where they diverge from the Thomistic position.

Between 1975 and 1979 the seemingly peaceful nation of Cambodia succumbed to one of the most bloodthirsty revolutions in modern history. Nearly two million people were killed. As head of the Khmer Rouge's

secret police, Comrade Duch was responsible for the murder of more than 20,000 of them. Twenty years later, not one member of the Khmer Rouge had been held accountable for what had happened, and Comrade Duch had disappeared. Photographer Nic Dunlop became obsessed with the idea of finding Duch, and shedding light on a secret and brutal world that had been sealed off to outsiders. Then, by chance, he came face to face with him... The Lost Executioner describes Dunlop's personal journey to the heart of the Khmer Rouge and his quest to find out what actually happened in Pol Pot's Cambodia and why.

The second edition of Hidden Gulag utilizes the testimony of sixty former North Koreans who were severely and arbitrarily deprived of their liberty in a vast network of penal and forced labor institutions in the Democratic People's Republic of Korea (DPRK or North Korea) for reasons not permitted by international law. By the time of the research for the second edition in 2010 and 2011, there were some 23,000 former North Koreans who recently arrived in South Korea. Included in this number are hundreds of persons formerly detained in the variety of North Korea's slave labor camps, penitentiaries, and detention facilities. Included in this number are several former prisoners who were arbitrarily imprisoned for twenty to thirty years before their escape or release from the labor camps, and their subsequent flight through China to South Korea. This newly available testimony dramatically increases our knowledge of the operation of North Korea's political prison and labor camp system. This second edition of Hidden Gulag also utilizes a recent international legal framework for the analysis of North Korea's human rights violations: the

norms and standards established in the Rome Statute of the International Criminal Court for defining and determining crimes against humanity, which became operative in July 2002. In addition to the testimony and accounts from the former political prisoners in this report, this second edition of Hidden Gulag also includes satellite photographs of the prison camps.

Napalm was invented on Valentine ' s Day 1942 at a secret Harvard war research laboratory. It created an inferno that killed over 87,500 people in Tokyo—more than died in the atomic explosions at Hiroshima or Nagasaki—and went on to incinerate 64 Japanese cities. The Bomb got the press, but napalm did the work. Robert Neer offers the first history.
