MODERN MOTORCYCLE TECHNOLOGY, Third Edition, provides an in-depth, visually rich guide to the internal and external workings of today's motorcycles. The book begins with an overview of motorcycle technology, including the history of the motorcycle and the current state of the industry. Coverage then progresses to safety measures, engine operation, internal combustion engines (two-stroke and four-stroke), electrical fundamentals, motorcycle maintenance, and troubleshooting. Thoroughly updated, the Third Edition includes the latest motorcycle models and technology from today's top manufacturers, as well as additional material on topics such as fuel injection, suspension systems, and electronics. Now better than ever, this trusted guide is ideal for anyone seeking the knowledge and skills to succeed in today's motorcycle technology field. XT600 (1984-1989), TT600 (1983-1986)

1972: Title Index

A compellingly-narrated, thrillingly-portrayed account account of an epic motorcycle journey taken in 2014

from Singapore to Sweden over 100 days. Philip's aim to increase breast cancer awareness makes it more than the run-of-the-mill adventure holiday, but a ride with a cause. Written as an internal monologue, much in keeping with long motorcycle rides where hours are spent alone in a helmet with one's thoughts, this chronicle runs through 17 countries and the entire sweep of the Silk Road. The motorcycles give the author an immediate access to different peoples and cultures, with a unique chance to meet breast cancer patients across different Asian countries. Time pressures in order to meet collaborators leads to mental collapse and near failure. As he falters from a mental breakdown and perseveres, it makes this journey more about cancer survival than ever intended.
