Although the factory doesn't require the transmission fluid to be replaced except for at every 60k miles, when your Ford F-150 starts racking up the miles, replacing the fluid more often is a great way to protect the transmission.
Honda Civic: How to Change Manual Transmission Fluid ...

With the vehicle level, bring the transmission fluid temperature to warm between 35 ° C - 45C ° (95 ° F – 113 ° F). At this temperature range, you can remove the transmission drain plug and transmission fluid should begin to flow out from the fill port level insert. When this happens, the proper DSG fluid level has been achieved.
