The Jumping Tree John Wiley & Sons
A collection of early personal and political essays from the Pulitzer Prize-winning author of *The Color Purple*. What is a womanist? Alice Walker sets out to define the concept in this anthology of early essays and other nonfiction pieces. As she outlines it, a womanist is a person who prefers to side with the oppressed: with women, with people of color, with the poor. As a writer, Walker has always taken such people as her primary subjects, and her search for paths toward self-possession and freedom always holds out hope for the transformative power of compassion and love. Whether she's taking on nuclear proliferation, the promise and problems of the civil rights movement, or her own creative process, Walker always brings to bear a fearless determination to tell the truth. This

ebook features an illustrated biography of Alice Walker including rare photos from the author's personal collection.

How to Write Social Sciences Research Paper: For Students and Professionals GRIN Verlag
In a research project, the most critical part is writing the report in a way which presents not just our findings, but the process through which we

arrived at these findings. It demands honesty about our research design and our perspectives, so that others can understand not just the research we have produced, but something about the way in which we have produced it. When carrying out research it is all too easy to become embroiled in our own research questions and objectives, so that when it comes to presenting our research we forget about situating it within the wider body of knowledge. For the lack of proper knowledge, many people find it difficult to writing up their paper. This book is intended to help you organize and write a quality research paper for Social Sciences. This book also gives you the idea about research design.

Compare and Contrast Inductive and Deductive Research Approaches Wipf and Stock Publishers

The book elaborates one of Roman Jakobson's many brilliant ideas, i.e. his insight that the two cognitive strategies of the metaphoric and the metonymic are the end-points on a continuum of conceptualization processes. This elaboration is achieved on the background of Lakoff and Johnson's twodomain approach, i.e. the mapping of a source onto a target domain of conceptualization. Further approaches dwell on different stretches of this metaphor-metonymy continuum. Still other papers probe into the specialized conceptual division of labor associated with both modes of thought. Two new breakthroughs in the cognitive linguistics approach to metaphor and metonymy have recently been developed: one is the three-domain approach, which concentrates on the new blends that become possible after the integration or the blending of source and target domain elements; the other is the approach in terms of primary scenes and subscenes which often determine the way source and target domains interact.

NEW YORK TIMES BESTSELLER • From the governor-elect of Maryland, the “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. Selected by Stephen Curry as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story

could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

Essay from the year 2013 in the subject English - Literature, Works, grade: 1,3, University of Paderborn (Angelistik), course: Concepts of Childhood, language: English, abstract: This essay wants to compare and contrast one of the first versions of Peter Pan, "Peter and Wendy" from 1911, with the movie "Hook" from 1991. The hypothesis of the paper is that both interpretations have different central messages depending on the cultural and social background in which the book was written and the movie was made. To expose these central messages the paper focuses on the

characterization of Peter Pan who is the main character in both stories. The object of this research and the aim of comparison and contrast of the two adaptations are to discover how the differences of these messages look like and how they are in detail related to society. The essay is structured as follows: After the introduction the second chapter explains why especially these two adaptations of Peter Pan are chosen. The third chapter discusses the gender background of Peter Pan to open a cultural perspective and get a better understanding of the main character. After that follows the characterization of Peter in the fourth chapter. This, as the main part of the assignment, is divided into several subchapters which describe different facets of Peter's character. The most remarkable characteristic of Peter is his person being an embodiment of childhood. This factor will be analyzed in even more sub-chapters. Furthermore, the fourth chapter gives a conclusion and points out the main results. Finally, in the sixth chapter an outlook will be taken and two examples of the huge social impact of Peter Pan, on the one hand The Peter Pan Syndrome and on the other hand the relation between the author of Peter Pan, J. M. Barrie, and the Great Ormond Street Hospital will be described in detail.

This book brings together the two disparate worlds of computational text analysis and biology and presents some of the latest methods and applications to proteomics, sequence analysis and gene expression data. Modern genomics generates large and comprehensive data sets but their interpretation requires an understanding of a vast number of genes, their complex functions, and interactions. Keeping up with the literature on a single gene is a challenge itself-for thousands of genes it is simply impossible. Here, Soumya Raychaudhuri presents the techniques and algorithms needed to access and utilize the vast scientific text, i.e. methods that automatically

read the literature on all the genes. Including background chapters on the necessary biology, statistics and genomics, in addition to practical examples of interpreting many different types of modern experiments, this book is ideal for students and researchers in computational biology, bioinformatics, genomics, statistics and computer science

The United States is among the wealthiest nations in the world, but it is far from the healthiest. Although life expectancy and survival rates in the United States have improved dramatically over the past century, Americans live shorter lives and experience more injuries and illnesses than people in other high-income countries. The U.S. health disadvantage cannot be attributed solely to the adverse health status of racial or ethnic minorities or poor people: even highly advantaged Americans are in worse health than their counterparts in other, "peer" countries. In light of the new and growing evidence about the U.S. health disadvantage, the National Institutes of Health asked the National Research Council (NRC) and the Institute of Medicine (IOM) to convene a panel of experts to study the issue. The Panel on Understanding Cross-National Health Differences Among High-Income Countries examined whether the U.S. health disadvantage exists across the life span, considered potential explanations, and assessed the larger implications of the findings. U.S. Health in International Perspective presents detailed evidence on the issue, explores the possible explanations for the shorter and less healthy lives of Americans than those of people in comparable countries, and recommends actions by both government and nongovernment agencies and organizations to address the U.S. health disadvantage.

The Other Wes Moore Crossway
Scientific Essay from the year 2017 in the subject Literature - Comparative Literature, , language: English, abstract: The aim of this research paper is to explore, by comparing and contrasting them, the two literary characters Hamlet and Oblomov and how they are exploited by William Shakespeare and Ivan Goncharov in different historical ages to project different

visions of the human situation. Every author is influenced by his age to certain degrees and if the art of characterisation of William Shakespeare is set against that of Ivan Goncharov, it is because of the difference in ideological perspectives. William Shakespeare's character Hamlet comes from Renaissance England and Ivan Goncharov's character Oblomov comes from nineteenth century Russia. The former is in certain ways different from the latter despite the fact that some traits of both characters are the same, such as indecision and procrastination. The comparison and contrast will be highlighted in this paper in terms of Marxist hermeneutics, which is a scientific theory and method of analysing the social and literary types in the context of class milieu. Applying Marxist literary hermeneutics to the art of characterisation of both the authors, the present study tries to introduce new portrait and reevaluation of the personages of the two literary types in an innovative perspective.
