A beautiful, arresting short story by Toni Morrison—the only one she

ever wrote—about race and the relationships that shape us through life,

with an introduction by Zadie Smith. Twyla and Roberta have known

each other since they were eight years old and spent four months

together as roommates in the St. Bonaventure shelter. Inseparable at

the time, they lose touch as they grow older, only to find each other

later at a diner, then at a grocery store, and again at a protest.

Seemingly at opposite ends of every problem, and in disagreement

each time they meet, the two women still cannot deny the deep bond

their shared experience has forged between them. Written in 1980 and

anthologized in a number of collections, this is the first time *Recitatif*

is being published as a stand-alone hardcover. In the story, Twyla's

and Roberta's races remain ambiguous. We know that one is white and

one is black, but which is which? And who is right about the race of

the woman the girls tormented at the orphanage? Morrison herself

described this story as "an experiment in the removal of all racial codes

from a narrative about two characters of different races for whom

racial identity is crucial." *Recitatif* is a remarkable look into what

keeps us together and what keeps us apart, and about how perceptions

are made tangible by reality.

The International Student's Guide to Writing a Research Paper is a reference text for undergraduate students and those in ESL or bridge courses who are writing a research paper for the first time. R. Douglas Hurt's brief history of American agriculture, from the prehistoric period through the twentieth century, is written for anyone coming to this subject for the first time. American Agriculture is a story of considerable achievement and success, but it is also a story of greed, racism, and violence. Hurt offers a provocative look at a history that has been shaped by the best and worst of human nature. Here is the background essential for understanding the complexity of American agricultural history, from the transition to commercial agriculture during the colonial period to the failure of government policy following World War II. Complete with maps, drawings, and over seventy splendid photographs, this revised edition closes with an examination of the troubled landscape at the turn of the twenty-first century. It also provides a ready reference to the economic, social, political, scientific, and technological changes that have most affected farming in America and the contributions of African Americans, Native Americans, and women. This survey will serve as a text for courses in the history of American agriculture and rural studies as well as a supplementary text for economic history and rural sociology courses.

Back after a four-year hiatus, New York Times bestselling author Scott Adams presents an outrageous look at work, home and everyday life in his new book, *Dilbert and the Way of the Weasel*. Building on Dilbert's theory that 'All people are idiots', Adams now says, 'All people are idiots. And they are also weasels.' Just ask anyone who worked at Enron. In this book, Adams takes a look into the Weasel Zone, the giant grey area between good moral behaviour and outright felonious activities. In the Weasel Zone, where most people reside, everything is misleading, but not exactly a lie. Building on his popular comic strip, Adams looks into work, home and everyday life and exposes the way of the weasel for everyone to see. With appearances from all the regular comic strip characters, Adams and Dilbert are at the top of their game – master satirists who expose the truth while making us laugh our heads off.
