As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and

illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a

tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half*, *Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*,

and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic!*

The Turnaway Study QBook International,

Inc. This book investigates how ecology and politics meet in the Middle East and how those interactions connect to the global political economy. Through region-wide analyses and case studies from the Arabian Peninsula, the Gulf of Aden, the Levant and North Africa, the volume highlights the intimate connections of environmental activism,	energy infrastructure and illicit commodity trading with the political economies of Central Asia, the Horn of Africa and the Indian subcontinent. The book's nine chapters analyze how the exploitation and representation of the environment have shaped the history of the region--and determined its place in global politics. It argues that how the	ecological is understood, ins trumentalized and intervened upon is the product of political struggle: deconstructing ideas and practices of environmental change means unravelling claims of authority and legitimacy. This is particularly important in a region frequently seen through the prism of environmental determinism, where ruling elites have

imposed authoritarian control as the corollary of 'environmental crisis'. This unique and urgent collection will question much of what we think we know about this pressing issue. This short story is regarded as an important early work of American feminist literature, illustrating attitudes in the 19th century toward women's health, both physical and mental. Presented in the first person, the story is a collection of journal entries written by a woman whose physician husband (John)	has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of exercise and air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women in that
