The real world is unbearable to madcap inventor Harry Gerber, so he uses his genius to twist the laws of science and create his own tailor-made universe. Master of Space and Time combines high physics and high jinks, blurring the line between science and magic. From a voyage to a mirror-image world where sluglike

parasites make slaves of humanity, to trees and bushes that grow fries and pork chops, to a rain of fish, author Rudy Rucker—two-time winner of the Philip K. Dick Award—takes readers on the ultimate joyride. But once the gluons at the core of Harry's creation run out ... disaster looms for Harry and his friends.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota

battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."

#### **Lemon-Aid New Cars and Trucks 2011**

Jack would rather stay at sea than fix the mistakes of his grandfather, the late Earl of Stansworth. But inheriting his grandfather's wealth and title and securing the welfare of his sister and mother require living with the aristocracy. Ivy Carlisle, the granddaughter of a dear old family friend, is willing to teach him etiquette and properly introduce him into society. Yet Jack soon learns that his new lifestyle isn't the only challenge. He must survive the conspiracies against him -- and try not to fall madly in love with his tutor.

#### Pay a Little Now, Or a Lot Later

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.
