Language Central for Math
helps ELLs and struggling
students develop the
academic vocabulary
necessary to master math.
Oftentimes it's the math
vocabulary, not the
mathematical concepts, that
hinder student mastery.
Language Central for Math is
designed to directly address
this issue - and to reinforce the
instruction given in the math
classroom. The curriculum that
serves as the foundation of the
program was developed by
Fitchburg Public School
District (MA), with a goal to
provide better Mathematics
access to its growing ELL
population. Language Central
for Math incorporates this
curriculum within an ELL
instructional framework
developed by Dr. Jim
Cummins, Pearson Advisor
and Professor at Univ of
Toronto. The program was
designed for easy and flexible
implementation: It
supplements any core math
program. Each lesson can be
used either: 1 class/ week
(ESL class) or 15-20
minutes/day (before each
math class).

In today's ever-busy, every-hurrying world, it's easy to yearn for slower, simpler times. Life in the old days was hard and far from idyllic, but the people were hard-working, honest, and honorable. In his book, *Communities and Communion in the Texas Hill Country*, author Paul Primrose offers memories, musings, and imaginings focused on life then and now in Llano and surrounding counties in the Texas Hill Country. Some of the people and businesses mentioned now belong to the past. At times witty and scathing and other times sweet and surprisingly soulful, the author's stories provide food for thought for folks of all ages from various walks of life—whether or not one is fortunate enough to be a

genuine Texan. The stories, like memories, are not in any particular order.
