the scholars at the

Germanisches  
Nationalmuseum and  
their international  
partners in the Early  
Du rer Project. This  
book deals with the  
core phenomena of  
Du rers early work,  
ranging from the  
artists biography and

surroundings to the question of Du rers role as the archetype of the modern artist. New sociological approaches allow us to interpret Du rers ideal neighbourhood as a source of inspiration for the artists work, resituating Du rer in the artistic context of his time, at an exciting crossroad between the imitation of traditional painting and the self-conscious renewal of his profession. Photographs of Du rers early work, many of which are new and published here for the first time, complete the publication, which will establish a new basis for a modern understanding of Germany's most famous artist.

Does new media represent a 'new avant-garde' of information? How can an information society be represented iconically if the activities that define it are all so dynamic? What are the cultural consequences of

extending the internet into the physical world? In proposing software as modernity's new societal force, this book seeks to reclassify software as today's revitalized combustion engine, underpinning the logic of contemporary culture. Manovich investigates the ways in which the shift from an industrial to information society has resulted in new aesthetic sensibilities and representations. He describes software as the internal combustion engine of the information society, arguing that it is in software that the new cultural logic manifests itself most

---

clearly. This is a cutting-edge and systematic examination of contemporary culture by the creator of the field of software studies.

solid-bodied guitars, semi-solid-bodied guitars, acoustic guitars, and bass guitars. Clean, modern spreads showcase thousands of full-color photographs of the world's most coveted guitars. **Epicurean Ethics in Horace** Princeton University Press Horace's Satires owe debts of

influence to a wide range of genres and authors, including, as this study demonstrates, the moral tradition of Epicureanism. Focusing on the philosopher Philodemus of Gadara, it argues that the central concerns of his work lie at the heart of the poet's criticisms of Roman society and its shortcomings. **2,000 Guitars** Dreamspinner Press When a bad day at work culminates in losing out on a promotion,

Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him

---

inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself

navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families. Althusser and Law Cambridge University Press There have been numerous publications

in the last decades on the Bible in literature, film, and art. But until now, no reference work has yet appeared on the Bible as it appears in Western music. In The Bible in Music: A Dictionary of Songs, Works, and More, scholars Siobhán Dowling Long and John F. A. Sawyer correct this gap in Biblical

---

reference literature, providing for the first time a convenient guide to musical interpretations of the Bible. Alongside examples of classical music from the Middle Ages through modern times, Dowling Long and Sawyer also bring attention to the Bible's impact on popular culture with numerous entries on hymns, spirituals, musicals, film music, and contemporary popular music. Each entry contains essential information about the original context of the work (date, composer, etc.) and, where relevant, its afterlife in literature, film, politics, and liturgy. It includes an index of biblical references and an index of biblical names, as well as a detailed timeline that brings to the fore key events, works, and publications, placing them in their historical context. There is also a bibliography, a glossary of technical terms, and an index of artists,

---

authors, and composers. The Bible in Music will fascinate anyone familiar with the Bible, but it is also designed to encourage choirs, musicians, musicologists, lecturers, teachers, and students of music and religious education to discover and perform some less well-known pieces, as well as helping them

to listen to familiar music with a fresh awareness of what it is about.

The study aims to analyse the impact of Luther's theology on his thoughts about music. It limits itself to an analysis of the topic by

focusing on the three most important statements of Luther about music in his unfinished treatise *On Music*. The first statement is that music is "a gift of God and not of man" [Dei donum hominum est], second, music "creates joyful soul" [facit letos animos], and third, music "drives away the devil" [fugat diabolum].
