Strategic Talent Management Resourcing and Talent Management Organizations traditionally have had a clear distinction between their policies on diversity and inclusion and their talent management. The main driving force behind diversity and inclusion has been being seen to be a good employer, to be able to make claims in the annual report and to feel as though a positive contribution is being made to society. On the other

hand, talent management activities have been driven by a real business need to ensure that the organization has the right people with the right skills in the right place to drive operational success. Inclusive Talent Management aligns talent management and diversity and inclusion, offering a fresh perspective on why the current distinction between them needs to disappear. Featuring case studies from internationally recognised brands such as Goldman Sachs, Unilever, KPMG, Hitachi, Oxfam and the NHS, Inclusive Talent Management shows that to achieve business objectives and gain the competitive advantage, it is imperative that organizations take an inclusive approach to talent management. It puts forward a compelling and innovative case, raising questions not only for the HR community but also to those in senior management positions, providing the practical steps, global examples and models for incorporating diversity and inclusion activities into talent management strategy.

Do you think of your company's talent as an investment to be managed like a portfolio? You should, according to authors Becker, Huselid, and Beatty, if you're interested in strategy execution. Many companies fall into the trap of spending too much time and money on low performers,

while high performers aren't getting the necessary resources, development opportunities, or rewards. In *The Differentiated Workforce*, the authors expand on their previous books, *The HR Scorecard* and *The Workforce Scorecard*, and recommend that you manage your workforce like a portfolio - with disproportionate investments in the jobs that create the most wealth. You'll learn to: Rise above talent management "best practice" and instead create a differentiated workforce that can't be easily copied by competitors Differentiate those capabilities in your company that are truly strategic Identify your wealth-creating "A" positions Create a new relationship between HR and line managers, and articulate the role each plays in a differentiated workforce strategy Develop the right measures for your organization Based on two decades of academic research and experience working with hundreds of executives, *The Differentiated Workforce* gives you the tools to translate your talent into strategic impact.
