Raising Our Children, Raising Ourselves John Wiley & Sons

"Maggie is earthy and real, full of love and knowledge, especially on raising sons." - Steve Biddulph "Maggie's perspective on raising boys is spot on. She writes with humor and depth, providing insight and strategies for many of the most important issues facing moms. There is a lovely ease to her writing and a powerful honesty. I hope every mother of a son (and everyone else!) will read this book. The future of the world, to a great extent, depends on how we raise our boys." - Michael Gurian, New York Times Bestselling Author of *The Wonder of Boys* and *Saving Our Sons* If we can see the world through boys' eyes a little better, we will make different choices in the way we mother them... and we will find them less confusing, and love them more deeply. Mothers of sons are worried about raising their boys in a world where negative images of masculinity are front and centre of our media, almost every day. Not only that, but statistically our boys are still struggling in many ways. Even though we live in a time where we recognise that nothing in gender is fixed, it remains a fact that the influence of a mother on her son is massive. A mother of four sons herself, Maggie Dent draws on her personal experience - and over four decades work as a teacher, counsellor and now author and speaker - to help build understanding, empathy and compassion for our boys. Maggie shares her five key secrets that every mum needs to know and uses the voices of men she has worked with and surveyed to reveal what really matters in a boy's relationship with his mother and other mother figures. Maggie is one of Australia's most popular parenting authors and educators, and her seminars about boys have sold out all across Australia and in the UK. She is finally sharing her insights, her reflections, and (as always) her humour around mothering boys to help you be the mum your son needs you to be.

Parenting Matters PuddleDancer Press

The secret to parenting success is out! Children need love, parents need respect. It's as simple and complex as that. Bestselling author Dr. Emerson Eggerichs has studied family dynamics for more than 30 years, earning a Ph.D. in Child and Family Ecology. As a senior pastor for nearly two

decades, he builds on a foundation of strong biblical principles, walking the reader through an entirely new way to approach the family dynamic. When frustrated with an unresponsive child, a parent doesn't declare, "You don't love me." Instead, the parent asserts, "You are being disrespectful right now." A parent needs to feel respected, especially during conflicts. When upset a child does not whine, "You don't respect me." Instead, a child pouts, "You don't love me." A child needs to feel loved, especially during disputes. But here's the rub: An unloved child or teen negatively reacts in a way that feels disrespectful to a parent. A disrespected parent negatively reacts in a way that feels unloving to the child. This dynamic gives birth to the FAMILY CRAZY CYCLE. This book teaches you to: See love and respect as basic family needs Stop the Family Crazy Cycle of conflict Parent in six biblical ways that energize your children Discipline defiance and overlook childishness Be the mature one since parenting is for adults only Become a loving parent in God's eyes, regardless of a child's response Based on what the Bible says about parenting, this book focuses on achieving healthy family dynamics. Dr. Eggerichs offers unprecedented transparency from his wife and three adult children, who share wisdom gained from the good, the bad, and the ugly of their family life. It's all here in this eye-opening exploration of the biblical principles on parenting that can help make families function as God intended.

Attached at the Heart Harmony

"Trust me. This is the only baby book you'll ever need! It's amazing, heartwarming, and completely user-friendly. Just add your heart!" --Christiane Northrup, MD, author of *Mother-Daughter Wisdom*, *The Wisdom of Menopause*, and *Women's Bodies, Women's Wisdom* Attached at the Heart offers readers practical parenting advice for the modern age. In its most basic form, "attachment parenting" is instinctive. A crying baby is comforted and kept close to parents for protection. If hungry, he or she is breastfed. And while it is understood that there is no such thing as perfect parenting, research suggests that there is a strong correlation between a heightened sense of respect, empathy, and affection in those children raised the "attachment parenting" way. In this controversial book, readers will gain much needed insight into childrearing while learning to trust the intuitive knowledge of their child, ultimately building a strong foundation that will strengthen the parent-child bond. Using the *Eight Principles of Parenting*, readers will learn: How to prepare for baby before birth Why breastfeeding is a must for busy moms When to start feeding solid food How to respond to temper tantrums Sleeping safety guidelines and the benefits of cosleeping Tips for short separation How to practice positive discipline and its rewards Tips for finding and maintaining balance The benefits of using a baby sling and implementing infant massage Tips on dealing with criticism from those opposed or unfamiliar with AP style The dangers surrounding traditional discipline styles of parenting Contrary to popular belief, "attachment

parenting" has been practiced in one form or another since recorded history. Over the years, it had been slowly replaced by a more detached parenting style—a style that is now believed by experts to be a lead contributing factor to suicide, depression, and violence. The concept of "attachment parenting"—a term originally coined by parenting experts William and Martha Sears—has increasingly been validated by research in many fields of study, such as child development, psychology, and neuroscience. Also known as "conscious parenting," "natural parenting," "compassionate parenting," or "empathic parenting," its goal is to stimulate optimal child development. While many attachment-parenting recommendations likely counter popular societal beliefs, authors Barbara Nicholson and Lysa Parker are quick to point out that the benefits outweigh the backlash of criticism that advocates of detached parenting may impose.
