Respiratory System (electronic Resource). Corwin Press

This is a Google Slides version of the "The Respiratory System – Lungs" chapter from the full lesson plan Senses, Nervous & Respiratory Systems Our resource is written in an easy-to-understand way that makes it a hit for students. Conduct an experiment to see just how much air your lungs can hold. All of our content is reproducible and aligned to your State Standards and are written to Bloom's Taxonomy. About GOOGLE SLIDES: This resource is for Google Slides use. Google Slides is free with a Google email account. We recommend having Google Classroom in addition to Google Slides to optimize use of this resource. This will allow you to easily give assignments to students with a click of a button. This resource is comprised of interactive slides for students to complete activities right on their device. It is ideal for distance learning, as teachers can share the resource remotely with their students, have them complete it and return, where the teacher can mark it from any location. What You Get: • An entire Google™ Slides presentation with reading passages, comprehension questions and drag and drop activities that students can edit and send back to the teacher. • A start-up manual, including a Teacher Guide on how to use Google Slides for your classroom, and an Answer Key to go along with the activities in the Google Slides document.

The Respiratory System Weigl Publishers

Introduces the parts of the body that work together to form the respiratory system which allows us to breathe.

Respiratory system Rainbow Horizons Publishing

People need to breathe to stay alive. This title explores how the lungs pull in air in order to send oxygen into the circulatory system. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Kids Core is an imprint of Abdo Publishing, a division of ABDO.

Next Generation NCLEX-PN Prep 2023-2024 LWW

Previous edition AJN 2020 Book of the Year! With expert, comprehensive guidance on the assessment and evaluation of student learning in multiple settings, this award-winning text remains the gold standard in this sphere of nursing education. The seventh edition incorporates the latest changes in the field and presents a new chapter on developing test components that prepare students for the Next Generation NCLEX, including descriptions and illustrations of the novel item types. The resource presents an expanded discussion on assessment of higher-level learning and clinical judgment, new content on assessment of competencies, examples of new item types in all chapters, updated information on online testing, more in-depth explanations of how to analyze and score NGN items with examples, and new content on evaluating students in online nursing programs. Also unique to this edition is practical advice on developing test blueprints and creating all types of test components including NCLEX-type items and the Next Generation NCLEX. The text continues to present fundamental measurement and evaluation concepts to aid current and future nurse educators in designing, critiquing, and employing pertinent test and evaluation tools along with guidance for evaluating instructor and program effectiveness. It also examines key social, ethical, and legal issues associated with testing and evaluation, including prevention of cheating and designing academic policies for testing, grading, and progression. New to the Seventh Edition: Discussion of competencies for assessment New chapter on developing test questions and other components preparing students for the Next Generation NCLEX In-depth explanations of how to analyze and score NGN items with examples and exhibits Examples of test items in each chapter Strategies for assessing higher-level learning and clinical judgment Updated content for online testing New content on evaluating students in online nursing programs Key Features: Discusses assessment of competencies Presents strategies for evaluating higher-level cognitive skills and clinical judgment Describes how to develop test blueprints and assemble, administer, write, and analyze tests Provides guidelines for writing all types of test items including Next Generation NCLEX (NGN) Includes explanations of how to analyze and score NGN items with examples and exhibits Details how to evaluate written assignments with sample scoring rubrics Includes extensive instructor resources including sample syllabus, course modules, learning activities, discussion questions, online resources, PowerPoints, and more

Why Do I Sneeze? ABDO

Give your students the chance to try out their "green thumbs" as they explore plants. Student notes explain much of the knowledge-based information contained in the unit. The Discovery Worksheets help to motivate students by providing hands-on experiments that uses readily available materials and follows a "Purpose, Materials, Procedure, Conclusions and Questions" format. Complete with 12 optional activities — including several plant related experiments — that provide flexibility as well as enrichment, teachers can create a custom lesson plan suitable for their classroom. The world of plants comes alive with this practical teaching package. This Earth Science lesson provides a teacher and student section with a variety of reading passages, activities, crossword, word search and answer key to create a well-rounded lesson plan. *Respiratory system basic sciences* EDCON Publishing Group This text is part of a series which examines the body by looking at the five main body systems. It uses accessible questions to introduce the reader to how the human body works and what can go wrong with it. It cites common incidents that the reader may have experienced to put the subject in context. This volume features body fact boxes and a factfile including a body map. There are also lists of further reading, non-fiction and fiction and other further resources, including addresses of helpful contacts.
