"In 1985, RAND's Institute for Civil Justice undertook a detailed study of aviation accident litigation in the United States. The study covered the general character of aviation accident litigation; reviewed the underlying principles and procedures used to compute the economic loss associated with individual decedents; described the characteristics of the decedents and compared the compensation paid to their survivors with the levels of economic loss they suffered; and analyzed the legal and economic determinants of the litigation decisions that plaintiffs and defendants faced. This Note contains the forms used to compile the data used in the various analyses.

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant

obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

This new edition of the classic guide offers a thorough and accessible introduction to contemporary critical theory. It provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African-American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading. This book can be used as the only text in a course or as a precursor to the study of primary theoretical works. It motivates readers by showing them what critical theory can offer in terms of their practical understanding of literary texts and in terms of their personal understanding of themselves and the world in which they live. Both engaging and rigorous, it is a "how-to" book for undergraduate and graduate students new to critical theory and for college professors who want to broaden their repertoire of critical approaches to literature.

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library 's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany 's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote 's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the “ new journalism. ” Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. “ I thought he was a very nice gentleman, ” he says of Herb Clutter. “ Soft-spoken. I thought so right up to the moment I cut his throat. ” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers ' flight, Capote 's account is so detailed that the reader comes to feel almost like a participant in the events.

In recent decades, a growing body of educational scholarship has called into question deeply embedded assumptions about the nature, value and consequences of reason. Education and the Limits of Reason extends this critical conversation, arguing that in seeking to investigate the meaning and significance of reason in human lives, sources other than non-fiction educational or philosophical texts can be helpful. Drawing on the work of Dostoevsky, Tolstoy and Nabokov, the authors demonstrate that literature can allow us to see how reason is understood and expressed, contested and compromised – by distinctive individuals, under particular circumstances, in complex and varied relations with others. Novels, plays and short stories can take us into the workings of a rational or irrational mind and show how the inner world of cognitive activity is shaped by external events. Perhaps most importantly, literature can prompt us to ask searching questions of ourselves; it can unsettle and disturb, and in so doing can make an important contribution to our educational formation. An original and thought provoking work, *Education and the Limits of Reason* offers a fresh perspective on classic texts by Dostoevsky, Tolstoy and Nabokov,

and encourages readers to reconsider conventional views of teaching and learning. This book will appeal to a wide range of academics, researchers and postgraduate students in the fields of education, literature and philosophy.

The Holy Bible, According to the Authorized Version (A.D. 1611), with an Explanatory and Critical Commentary and a Revision of the Translation by Bishops and Other Clergy of the Anglican Church John Wiley & Sons Babies who cry a lot, or are unsettled in the night, are common sources of concern for parents and, consequently, costly problems for health services. In this book, Ian St James-Roberts summarises the evidence concerning infant crying and sleeping problems to provide a new evidence-based approach to these common challenges for parents and health services. The book begins by distinguishing between infant and parental parts of the problems and provides guidelines for assessing each issue. Topics covered include: • the pros and cons of 'infant-demand' versus 'limit-setting' forms of parenting • causes of infant 'colicky' crying and night waking • effects of night-time separations on infant attachments • interventions such as swaddling, herbal remedies, and 'controlled crying.' Since there is now firm evidence that parents' vulnerabilities and cultural backgrounds affect how problems are defined and guidance is acted upon, and that parents who wish to do so can reduce infant crying and unsettled night waking, social factors are considered alongside medical issues. Translating research evidence into practical tools and guidance, *The Origins, Prevention and Treatment of Infant Crying and Sleeping Problems* will be essential reading for a wide range of healthcare professionals including mental health staff, social workers, midwives, health visitors, community physicians and paediatricians.

Best shows us that, while the prom is often trivialized, most kids take the prom seriously. The prom is a space where kids work through their understanding of authority, social class, gender norms, and multicultural schooling. Proms are more than just pictures and puffed sleeves--they are a mythic part of youth culture and, for better or worse, will always be a night to remember.

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize – winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of *Hiroshima*.

In the vein of The Glass Castle, Breaking Night is the stunning memoir of a young woman who at age fifteen was living on the streets, and who eventually made it into Harvard. Liz Murray was born to loving but drug-addicted parents in the Bronx. In school she was taunted for her dirty clothing and lice-infested hair, eventually skipping so many classes that she was put into a girls' home. At age fifteen, Liz found herself on the streets. She learned to scrape by, foraging for food and riding subways all night to have a warm place to sleep. When Liz's mother died of AIDS, she decided to take control of her own destiny and go back to high school, often completing her assignments in the hallways and subway stations where she slept. Liz squeezed four years of high school into two, while homeless; won a New York Times scholarship; and made it into the Ivy League. Breaking Night is an unforgettable and beautifully written story of one young woman's indomitable spirit to survive and prevail, against all odds.
