SQL in 24 Hours, Sams Teach Yourself Houghton Mifflin Harcourt

This highly successful text has long been considered a standard introduction to the practical analysis of English sentence structure. As in previous editions, key concepts such as constituency, category and function are carefully explained as they are introduced. Tree diagrams are used throughout to help the reader visualise the hierarchical structure of sentences. The final chapter sets the analysis in the context of generative grammar. In this third edition, *Analysing Sentences* has been thoroughly revised. It has an attractive new layout, more examples, clearer explanations and summaries of major points. A major change concerns the analysis of auxiliary verbs, which has been revised to bring it more in line with current thinking. Clear development from chapter to chapter, together with the author's accessible style, make this book suitable for readers with no previous experience of sentence analysis. A practical and reader-friendly text, it includes many in-text exercises and end-of-chapter exercises, all with answers, and Further Exercises, making it suitable for self-directed study as well as for taught courses. Noel Burton-Roberts is Professor of English Language and Linguistics at Newcastle University. He is the author of *The Limits to Debate: a Revised Theory of Semantic Presupposition* (CUP 1989), the editor of *Phonological Knowledge: Conceptual and Empirical Issues* (OUP 2000) and *Pragmatics* (Palgrave, 2007), and the author of numerous articles on various aspects of linguistics and the English language.

A Migrant from Morocco Cambridge University Press

Examining four dichotomies in Spanish, this book shows how to reduce the six to ten rules common in textbooks for each contrast to a single binary distinction. That distinction is a form of totality vs. part, easier to see in some of the dichotomies, but present in all of them. Every chapter is example-driven, and many of those examples come from writing by students. Readers can test out for themselves the explanation at work in the examples provided. Then, those examples are explained step by step. In addition to examples from writing by college students, there are examples from RAE (Real Academia Española), from scholars, from writers, from *Corpes XXI* (RAE), from the *Centro Virtual Cervantes*, and from the Internet. Many of those examples are presented to the reader as exercises, and answers are provided. This book was written for teachers of Spanish as a second language (L2) and for minors or majors of Spanish as an L2. It will also benefit teachers and learners of other L2s with some of these dichotomies.

Arab world, third world, backward societies, under-developed countries, unchanging realities: a political status quo whose legitimacy few of us could question until very recently when the riots of the Arab spring broke out and took the world unawares. A migrant from Morocco describes where unrest takes root and what soil renders the growing of freedom inevitable. Hady Hayat, the major character of this novel, begins his struggle in Morocco, his native land, and when he fails, he turns to Europe but finds little to pin hopes upon.
