Thomas Edison

stunned America in

1879 by unveiling a

world-changing

invention--the light

bulb--and then

launching the

electrification of

America's cities. A

decade later,

despite having been

an avowed

opponent of the

death penalty,

Edison threw his

laboratory

resources and

reputation behind

the creation of a

very different sort of device--the electric chair. Deftly exploring this startling chapter in American history, Edison & the Electric Chair delivers both a vivid portrait of a nation on the cusp of modernity and a provocative new examination of Edison himself. Edison championed the electric chair for reasons that remain controversial to this day. Was Edison genuinely concerned about the suffering of the condemned? Was he waging a campaign to smear his rival George Westinghouse's alternating current and boost his own system? Or was he warning the public of real dangers

posed by the high-voltage alternating wires that looped above hundreds of America's streets? Plumbing the fascinating history of electricity, Mark Essig explores America's love of technology and its fascination with violent death, capturing an era when the public was mesmerized and terrified by an invisible force that produced blazing light, powered streetcars, carried telephone conversations--and killed.

The Chronology of American Literature

Harper Collins

This book examines the relationship between nihilism and postmodernism in relation to the sublime, and is divided into three parts: history, theory, and praxis. Arguing against the simplistic division in literary criticism between nihilism and the sublime, the book demonstrates that both are clearly implicated with the Enlightenment. Postmodernism, as a product of the Enlightenment, is therefore implicitly related to both nihilism and the sublime, despite the

fact that it is often characterised as either nihilistic or sublime. Whereas prior forms of nihilism are 'modernist' because they seek to codify reality, postmodernism creates a new formulation of nihilism - 'postmodern nihilism' - that is itself sublime. This is explored in relation to a broad survey of postmodern literature in two chapters, the first on aesthetics and the second on ethics. It offers a coherent thesis for reappraising the relationship between nihilism and the sublime, and grounds this argument with frequent references to postmodern literature, making it a book suitable for both researchers and those more generally

interested in postmodern literature. The Name of the World Good Press This Encyclopedia offers an indispensable reference guide to twentieth-century fiction in the English-language. If you are looking to brush up on your literary knowledge, check a favorite author's work, or see a year's bestsellers at a glance, *The Chronology of American Literature* is the perfect resource. At once an authoritative reference and an ideal browser's guide, this book outlines the indispensable information in America's rich

literary past--from major publications to lesser-known gems--while also identifying larger trends along the literary timeline. Who wrote the first published book in America? When did Edgar Allan Poe achieve notoriety as a mystery writer? What was Hemingway's breakout title? With more than 8,000 works by 5,000 authors, *The Chronology* makes it easy to find answers to these questions and more. Authors and their works are grouped within each year by category: fiction and nonfiction; poems; drama; literary criticism; and

publishing events. Short, concise entries describe an author's major works for a particular year while placing them within the larger context of that writer's career. The result is a fascinating glimpse into the evolution of some of America's most prominent writers. Perhaps most important, The Chronology offers an invaluable line through our literary past, tying literature to the American experience--war and peace, boom and bust, and reaction to social change. You'll find everything here from Benjamin Franklin's "Experiments and

Observations on Electricity," to Davy Crockett's first memoir; from Thoreau's "Civil Disobedience" to Edith Wharton's Ethan Frome; from meditations by James Weldon Johnson and James Agee to poetry by Elizabeth Bishop. Also included here are seminal works by authors such as Rachel Carson, Toni Morrison, John Updike, and Arthur Schlesinger, Jr. Lavishly illustrated--and rounded out with handy bestseller lists throughout the twentieth century, lists of literary awards and prizes, and authors' birth and death

dates--The Chronology of American Literature belongs on the shelf of every bibliophile and literary enthusiast. It is the essential link to our literary past and present. " Johnson writes with a fervor that can only be described as religious. Seek is scary and beautiful and ecstatic and uncontrolled...he elevates the mundane to the sublime; he boils things down to their essence. He ' s simply one of the few writers around whose sentences make you shudder. "

—Adrienne Miller, Esquire Part

political disquisition, part travel journal, part self-exploration, Seek is a collection of essays and articles in which Denis Johnson essentially takes on the world. And not an obliging, easygoing world either; but rather one in which horror and beauty exist in such proximity that they might well be interchangeable. Where violence and poverty and moral transgression go unchecked, even unnoticed. A world of such wild, rocketing energy that, grasping it, anything at all is possible. Whether traveling through war-ravaged Liberia, mingling with the crowds at a

Christian Biker rally, exploring his own authority issues through the lens of this nation's militia groups, or attempting to unearth his inner resources while mining for gold in the wilds of Alaska, Johnson writes with a mixture of humility and humorous candor that is everywhere present. With the breathtaking and often haunting lyricism for which his work is renowned, Johnson considers in these pieces our need for transcendence. And, as readers of his previous work know, Johnson's path to consecration frequently requires a

limning of the darkest abyss. If the path to knowledge lies in experience, *Seek* is a fascinating record of Johnson's profoundly moving pilgrimage. *Final Things* Houghton Mifflin Harcourt A practical guide to one of the most rewarding forms of literary journalism. *The Encyclopedia of Twentieth-Century Fiction*, 3 Volume Set DigiCat *The Drift: Affect, Adaptation, and New Perspectives on Fidelity* offers a new perspective on the complex interrelations between literature and cinema. It

does so by articulating an 'affective turn' for adaptation studies, a field whose traditional focus has been the critical castigation of film adaptations of canonical plays or novels. Drawing on theorists such as Gilles Deleuze, Brian Massumi, and Marco Abel, the author is able to re-conceive literary and cinematic works as textual engines generating and circulating affect, and the adaptive process as a drifting of those affective intensities from one medium to another. By

conceptualizing adaptation in this manner, the work steers clear of the chimerical notion of 'fidelity' (to character, to theme, to narrative) which has anchored so many analyses of adaptive texts over the years-and the reproofing language that inevitably attends it-in favor of more productive avenues of investigation: What affective work are certain literary and filmic texts performing? What can this tell us, more broadly, about the underexplored affective

dimensions of literature and cinema, and the dialogic interactions between them? The Drift addresses such questions through close, careful readings which put a variety of realist, modernist, and postmodernist works into conversation with each other, among them the fiction of John Dos Passos, Don DeLillo, and Susanna Moore, the films of Dziga Vertov and Sergei Eisenstein, as well as recent cinematic adaptations by Jane Campion and Charles Burnett.

This methodological approach, helps to elevate adaptation studies into a discourse that speaks more directly and pertinently to our fluid, hypertextual era. The Oxford Guide to Contemporary World Literature Farrar, Straus and Giroux opinion, the Guide offers a discriminating - and sometimes controversial - view of a broad range of contemporary literatures. Varney the Vampire (Vol.1-3) Sheed & Ward Once upon a time there was a war . . . and a young American who thought of himself as the Quiet American and the Ugly American, and who wished to be neither, who wanted instead to be the Wise American, or the Good American, but who eventually came to witness himself as the Real American and finally as simply the Fucking American. This is also the story of the Houston brothers, Bill and James, young men who drift out of the Arizona desert into a war in which the line between disinformation and delusion has blurred away. In its vision of human folly, and its gritty,

sympathetic portraits of men and women desperate for an end to their loneliness, whether in sex or death or by the grace of God, this is a story like nothing in our literature. *Tree of Smoke* is Denis Johnson's first full-length novel in nine years, and his most gripping, beautiful, and powerful work to date. *Tree of Smoke* is the 2007 National Book Award Winner for Fiction. *The Art of the Epigraph* iUniverse Adopting a novel cross-disciplinary approach, this book
