The Discovering Science through Inquiry series provides teachers and students of grades 3-8 with direction for hands-on science exploration around particular science topics and focuses. The series follows the 5E model (engage, explore, explain, elaborate, evaluate). The Earth Systems and Cycles kit provides a complete inquiry model to explore Earth's various systems and cycles through supported investigation. Guide students as they make cookies to examine how the rock cycle uses heat to form rocks. Earth Systems and Cycles kit includes: 16 Inquiry Cards in print and digital formats;

Teacher's Guide; Inquiry Handbook (Each kit includes a single copy; additional copies can be ordered); Digital resources include PDFs of activities and additional teacher resources, including images and assessment tools; leveled background pages for students; and video clips to support both students and teachers.

The American Journey McGraw-Hill Build foundational reading skills with 180 Days of Reading, 2nd Edition, a workbook of engaging and effective daily practice activities. This easy-to-use first grade workbook is perfect for at-home learning or classroom instruction. Watch students learn to read and write more confidently with these standards-

based learning activities. The 2nd Edition of this activity book incorporates thematic units and a combination of fiction, nonfiction, and nontraditional texts. The new edition also reinforces the connection between reading and writing by having students write about what they read. Parents appreciate the grade-appropriate reading passages and fascinating topics that children will love. The daily reading practice is great for homeschool, to reinforce learning at school, or to prevent learning loss over summer. Teachers rely on these workbooks to save them valuable time and address learning gaps. Glencoe Accounting Disha Publications Enrichment is not a Packet! provides

educators with meaningful and practical strategies for engaging and challenging their highly capable learners. In it educators will discover approaches to offer choices within the classroom in ways that will allow the daily routine to run more smoothly. Educators will discover how to integrate proven techniques to motivate gifted students to reach beyond the bar of the standards. The target audience for this book would be classroom teachers, gifted and talented teachers, homeschool teachers, administrators, and curriculum directors who work with children in grades K-5. This book is different than others in the field because it is geared toward multiple grade levels and subject areas;

therefore the ideas and strategies presented can be used from kindergarten to grade five and in all disciplines. This book also offers the reader a realistic, more up to date, technologically savvy approach that engages the modern learner.

Enrichment is not a Packet! Disha Publications
Easy to apply lessons for reteaching difficult algebra concepts Many students have trouble grasping algebra. In this book, bestselling authors Judith, Gary, and Erin Muschla offer help for math teachers who must instruct their students (even those who are struggling) about the complexities of algebra. In simple terms, the authors outline 150 classroom-

tested lessons, focused on those concepts often most difficult to understand, in terms that are designed to help all students unravel the mysteries of algebra. Also included are reproducible worksheets that will assist teachers in reviewing and reinforcing algebra concepts and key skills. Filled with classroom-ready algebra lessons designed for students at all levels The 150 mini-lessons can be tailored to a whole class, small groups, or individual students who are having trouble This practical, hands-on resource will help ensure that students really get the algebra they are learning

Spotlight on Literacy 2000 Holt McDougal
Action Research: Using Strategic Inquiry to Improve Teaching and Learning helps educators use research to guide decision-making and determine the effectiveness of various instructional strategies. The book leads the reader through the action research process using a model of self-regulation, which focuses on task definition, goal setting and planning, enacting research, and adaptation. Written specifically for educators who may not feel prepared to measure the impact of interventions on student learning outcomes, the book provides very practical and useful tools, containing specific examples that are

relevant to teachers' everyday reality. The text also reinforces how action research can improve the teaching and learning process by reinforcing or changing perceptions about the use of informal data, including anecdotal notes or observations, in the research process.
