Return from the Stars is a mutiny against the total conformity and insipid living in the entirely uniform society. "Beneath a dome supported by cracked, crumbling columns stood a woman, as though she had been waiting for me. I saw her face now, the flow of sparks in the diamond disks that hid her ears, the white - in the shadow, silvery - dress.

Stanislaw Lem's Return from the Stars recounts the experiences of Hal Bregg, an astronaut who returns from an exploratory mission that lasted ten years—although because of time dilation, 127 years have passed on Earth. Bregg finds a society that he hardly recognizes, in which danger has been eradicated.

Return From The Stars Stanislaw

Stanislaw Lem's novel Return from the Stars dates from 1961, the year of Solaris, and begins with precisely the same effect of mystery, of (in Darko Suvin's helpful phrase) estrangement. The plot is startlingly conventional: the hero returns from a faster-than-light journey of great hardship and danger to a world a century in his future; how will he cope?

LEM Stanislaw Return From The Stars Audiobook

The war raged across the galaxy. Billions had died, billions more were doomed. Moons, planets, the very stars themselves, faced destruction, cold-blooded, brutal, and worse, random. The Idirans fought for their Faith; the Culture for its moral right to exist. Principles were at stake. There could be no surrender.
