Easton Novak is hiding

something fearsome inside of him. An unconventional upbringing has turned his inner grizzly into a berserker—one who has all but destroyed his humanity. Being around people isn't easy. Not when he doesn't understand any of their reactions, or half of what they're saying. And if he can convince his alpha he's half sane, he just might let Easton live. But when the raven from Easton's childhood shows up at his door again, he knows he's slowly sinking into a madness he can't come back from. She's not real. She can't be. Raven shifter, Aviana King, is terrified of bears. They're her people's natural enemy, but she hasn't been able to forget the bear cub she befriended all those years ago. Faced with a loveless courtship she doesn't want, she visits Easton just to see if the sparking feelings she felt for him when they were kids are still there. The only problem is, he thought she was just a friendly raven all those years ago, and

now he doesn't recognize her human form at all. But as she searches for the courage to approach him and his terrifying Gray Back Crew, it becomes clear that the sweet silver bear cub from her childhood has grown into a powerful, dominant, barely-controlled monster grizzly. Now, the greatest threat to Aviana's life is the man she loves. He isn't Easton Novak anymore. He's Beaston. Content Warning: explicit love scenes, naughty language, and piles of sexy shifter secrets. The guides were developed to cross the boundaries between these professions, and thus reflect this diversity: trips focus on the built environment, the effects of the 1906 earthquake, the San Andreas fault, and other active faults in northern California.

Hiking the San Francisco Bay Area Wilderness Press Books, articles, and commentaries have told the story of how the storm of the century in the fall of 1846 trapped eighty-one innocent men, women, and children in the Sierra Nevada Mountains and how brave men risked their lives to save them. In Saving the Donner Party, author Dr. Richard F. Kaufman tells the story of the rescuers of the Donner Party. During the last two decades, Dr. Kaufman has compiled a record of historical documents and letters from Sutter's Fort State Park and the California State Library. He reviews the older literature with a more modern approach, introducing orbital satellite studies with panoramic descriptions of travel routes not seen before. Using historical weather statistics and tree ring technology, he presents a more thorough understanding of the so-called "storm of the century" that enveloped the Donner Party. His account focuses on the massive effort and expenditure of resources

by the rescue parties, involving the progress of the Mexican War going on at that time. Saving the Donner Party presents an in-depth interpretation of the event with surprising revelations that changed the historical setting and legacy of California, adding richly to the literature of this topic and updating the knowledge of the Donner Party episode.
