Cardassia Prime is home to a prideful people who, for centuries, forged alliances with those they believed would strengthen them and their place in the Alpha Quadrant, and expanded their empire at great cost to other worlds. For generations, dissenting voices were silenced by either fear or an early grave. When their wartime ally, the Dominion, suddenly turned on them, seeking to transform Cardassia into a tomb for every last member of their race, their old adversary—the United Federation of Planets—put an end to the carnage, and even now works to help rebuild Cardassia Prime. To celebrate this alliance, the Castellan of the Cardassian Union is to welcome the Federation president to Cardassia Prime. As a symbol of this deepening friendship, the U.S.S. Enterprise-E is tasked to carry the Cardassian ambassador to the Federation back home. For his part, Ambassador Elim Garak is working with Captain Jean-Luc Picard to oversee the diplomatic reception that will commemorate the last of Starfleet's personnel finally leaving the homeworld. However, there are malevolent forces at work, who even now strive to "restore Cardassia to its proper place and glory," and are willing to do anything to achieve their goal....

Stranded in the past, he struggles to find a way back to his own century. But living an existence he was not meant to, he will eventually have to move on, and ultimately face the shadows born of his lost life. In the other, he is prevented from saving the woman's life, allowing Earth's history to remain unchanged. Returning to the present, he is nonetheless haunted by the echoes of an existence he never lived, and by fears which will bring him full circle to the shadows he never faced.

*Star Trek: The Original Series: Allegiance in Exile* Simon and Schuster

There's likely no more of a thankless job in the Federation than temporal investigation. While starship explorers get to live the human adventure of traveling to other times and realities, it's up to the dedicated agents of the Federation Department of Temporal Investigations to deal with the consequences to the timestream that the rest of the Galaxy has to live with day by day. But when history as we know it could be wiped out at any moment by time warriors from the future, misused relics of ancient races, or accident-prone starships, only the most disciplined, obsessive, and unimaginative government employees have what it takes to face the existential uncertainty of it all on a daily basis . . . and still stay sane enough to complete their assignments. That's where Agents Lucsly and Dulmur come in—stalwart and unflappable, these men are the Federation's unsung anchors in a chaotic universe. Together with their colleagues in the DTI—and with the help and sometimes hindrance of Starfleet's finest—they do what they can to keep the timestream, or at least the paperwork, as neat and orderly as they are. But when a series of escalating temporal incursions threatens to open a new front of the history-spanning Temporal Cold War in the twenty-fourth century, Agents Lucsly and Dulmur will need all their investigative skill and unbending determination to stop those who wish to rewrite the past for their own advantage, and to keep the present and the future from devolving into the kind of chaos they really, really hate.
