After the Flood of Noah, in short time Nimrod's Babylonish religious teachings eventually infiltrated every religion known to man its apostate religion, even to Christendom. Religions of this world have failed mankind miserably, with Christendom at the forefront. The scandalous expose of homosexual and pedophile priest and ministers is an outrage and is only the tip of the iceberg. They shall reap what they have sown. Matthew 7:22-23; Titus 1:6. Religion Needs Truth and Purity We must obey God as Ruler rather than men New Book exposes corruption existing in Christendom Philadelphia, PA Religions of this world in its history, would number as many as the stars. Religion has been central in forming nations from antiquity. In the beginning there was one God, one faith. After the Flood of Noah, in short time Nimrod's Babylonish religious teachings eventually infiltrated every religion in its apostate teachings, including Christendom. The teachings of Christendom are at opposite ends of the pure teachings of Christianity that Christ taught to his early disciples. Christendom has always persecuted the true Christians over the centuries, even to death. The harlots meddling in the politics of the world has brought on untold misery and suffering on mankind for almost 1700 years now. This book exposes her harlotry and false teachings that have misled, and are misleading those that wish to please God. Concerning this harlot they shall reap what they have sown. Revelation 17:1,2,5,6,18 and 18:3. Xlibris releases Ron C. Kimreys compelling new book Mea-Culpa. The text is a comprehensive realization of how religion has played the major role in the development of government and society in the main, from Eden until our present time. Readers will discover how precisely the philosophy and traditions of man had taken over the daily movements of mankind whether we are aware of it or not. The book looks at false teachings and how they crept into Christendom, which is a very far cry from the Christianity that Jesus Christ first taught, and at the same time it exposes Apostate Christendom as the Harlot of Revelation. Interestingly, this book also explores some details about the homosexual and pedophile scandals of the Catholic Church and her priesthood, which reveals the harlots corruption within. With its daring views and in-depth details, Mea-Culpa is a striking book to read as it reveals just how corrupt Christendom has always been since its inception from the time of the death of Christ's apostles, and how religion has failed because it has not practiced the truth of God's INSPIRED WORD, THE HOLY BIBLE. Furthermore, Kimreys book shows that Christendom's hatred of the truth has caused unmentionable suffering on true Christians and mankind itself. Mea-Culpa is now available for ordering online at Xlibris.com and at your local book retailer.

A revelation of Jesus Christ. Thus begins a candidate for the most misunderstood literary creation in human history. This book, with its vivid imagery, but written in a little used literary form, is intended for the support and comfort of the followers of Jesus in their spiritual journey, especially during times of persecution. Written in poetic code, its glorious messages of comfort are hidden from the world and its alarmist profiteers. It is the grand climax of the Bible, a summary of the teachings of the 1st Century church. Once understood, the rich imagery opens easily to the bondservants of Jesus.

[Apocalypse Delayed](#) Augsburg Fortress

Millions of Americans take the Bible at its word and turn to like-minded local ministers and TV preachers, periodicals and paperbacks for help in finding their place in God's prophetic plan for mankind. And yet, influential as this phenomenon is in the worldview of so many, the belief in biblical prophecy remains a popular mystery, largely unstudied and little understood. When Time Shall Be No More offers for the first time an in-depth look at the subtle, pervasive ways in which prophecy belief shapes contemporary American thought and culture. Belief in prophecy dates back to antiquity, and there Paul Boyer begins, seeking out the origins of this particular brand of faith in early Jewish and Christian apocalyptic writings, then tracing its development over time. Against this broad historical overview, the

effect of prophecy belief on the events and themes of recent decades emerges in clear and striking detail. Nuclear war, the Soviet Union, Israel and the Middle East, the destiny of the United States, the rise of a computerized global economic order—Boyer shows how impressive feats of exegesis have incorporated all of these in the popular imagination in terms of the Bible's apocalyptic works. Reflecting finally on the tenacity of prophecy belief in our supposedly secular age, Boyer considers the direction such popular conviction might take—and the forms it might assume—in the post-Cold War era. The product of a four-year immersion in the literature and culture of prophecy belief, When Time Shall Be No More serves as a pathbreaking guide to this vast terra incognita of contemporary American popular thought—a thorough and thoroughly fascinating index to its sources, its implications, and its enduring appeal.

Christian Denominations Xulon Press

This book deals with the causes that led to the formation of so many denominations. The main reason behind this is the misinterpretation of the word of God. Initial faith was purely Catholic based upon the Church founded by the disciples of Christ, but when it became the Roman Catholic Church, the drawbacks started surfacing in the Church. So the believers thought of other groups and sects, and they started leaving the Roman Catholic Church

and formed other denominations. Behind all this was the human factor of pope at that time. Whatever I got from my study I have tried to write about the different denominations.

The Apocalypse, Or "The Day of the Lord" John Wiley & Sons

The Covid?19 pandemic was global in its spread and reach, as well as in its medical, social and economic effects. In many respects, the global effort to "flatten the curve" produced a flattening of experience around the world and a striking coincidence of similar experiences in countries the world over. The identity, simultaneity and uniformity of experience were also manifest in common concerns at the intersection of law and religion in many nations around the world, including Africa. The lockdowns and closure of religious worship centres - churches, mosques and religious organisations of all sorts - raised questions of freedom of religion and the related concern for freedom of assembly, along with concerns about the relation of religion to science and public health, religious channels of communication and religious provision of social services. After all, health, communications and social services are all areas in which African religious organisations play key roles. Potential tensions around these issues raised further considerations about the nature of religion-state relations, the status of religious authority and whether religious and state actors would work together or at odds in addressing the Covid?19 pandemic.
