Crystallie's innocent life was changed overnight. She'd realized that the people she trusted the most could not be trusted at all! She is propelled into a quest for revenge. Along her journey, she is faced with the choice of love or the conquest of vengeance. Riveting! "It was better that way, better to be seen as weak. If only they knew, in the last few days, she had turned her weakness into numbness, her stupidity into resolve, and her anger into revenge. With each passing moment, she was closer to something she yearned for more than food, more than money, more than sleep. Revenge was her only heart's desire." Emotionally charged! "Though Luis brought her immense happiness, that happiness was straddled to an overwhelming sadness. For until she had her full and complete revenge, she knew she would never be completely happy with him . . . 'When I am at the end of this long road that I am on, I will find you, even at the risk of you turning me away.' With that, she turned and walked away. She knew she was walking away from a real chance at happiness, but she needed to stay the course. It was unfortunate her need for revenge was stronger than her need for love." Compelling!
