Create a Reverse Outline of your draft. This is making an outline after your paper has been written, and it will help you to see your draft's structure and logical flow. To do this: First, circle your thesis statement; Then, reading each paragraph one at a time, write down the main point of each

paragraph in the margin next to the paragraph.

20.1 Revising Your Research Paper – Composing Ourselves

...

Revising papers is not easy but is essential. Viewing it as collaboration between the authors, the reviewers, and the editor can make this process easier and more effective. In a very real sense, all parties have similar goals: To publish good papers in the journal. Criticism is painful, but it is also essential.

Steps for Revising // Purdue Writing Lab

In one single sentence, you stake a claim and promise to prove your point with evidence.

Very often, the

evidence we gather doesn't "prove" our original hypothesis, but it does lead to new discovery. Most writers have to re-work the original thesis statement so it accurately reflects the findings of our research.

English Revising Research Paper - Best Custom Writings

When revising a research paper, evaluate its cohesion. In particular, check that information from research is smoothly integrated with your ideas.

An effective research paper uses a style and tone that are appropriately academic and serious.

Revising. Revising is a continuous “re-seeing” of your writing that considers

larger issues like focus, organization, and audience. It is not simply moving or deleting a few sentences or checking for typos.

Revising Tips. Set aside your writing for a few days (or hours, if you procrastinated), in order to clear your head.

Revising & Editing a Research Paper - Excelsior College OWL
Revising isn't the first step in the process of writing a research paper, but it is perhaps the most important.

Many students skip the revision process, mistaking editing for revision. While editing is also very important, revision is an integral part of any good writing process. During revision, you should try to see your work from different

perspectives and different angles.

Revision literally means to “see again,” to look at something from a fresh, critical perspective. It is an ongoing process of rethinking the paper: reconsidering your arguments, reviewing your evidence, refining your purpose, reorganizing your presentation, reviving stale prose. But I thought revision was just fixing the commas and spelling
