Imperial Leather Nina Levine Official U.S. edition with full color illustrations throughout. **NEW YORK TIMES BESTSELLER** Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life.

It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

A deadly continental struggle, the Thirty Years War devastated seventeenth-century Europe, killing nearly a quarter of all Germans and laying waste to towns and countryside alike. Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world. When defiant Bohemians tossed the Habsburg emperor's envoys from the castle windows in Prague in 1618, the Holy Roman Empire struck back with a vengeance. Bohemia was ravaged by mercenary troops in the first battle of a conflagration that would engulf Europe from Spain to Sweden. The sweeping narrative encompasses dramatic events and unforgettable individuals—the sack of Magdeburg; the Dutch revolt; the Swedish militant king Gustavus Adolphus; the imperial generals, opportunistic Wallenstein and pious Tilly; and crafty diplomat Cardinal Richelieu. In a major reassessment, Wilson argues that religion was not the catalyst, but one element in a lethal stew of political, social, and dynastic forces that fed the conflict. By war's end a recognizably modern Europe had been created, but at what price? The Thirty Years War condemned the Germans to two centuries of internal division and international impotence and became a benchmark of brutality for centuries. As late as the 1960s, Germans placed it ahead of both world wars and the Black Death as their country's greatest disaster. An understanding of the Thirty Years

War is essential to comprehending modern European history. Wilson's masterful book will stand as the definitive account of this epic conflict. For a map of Central Europe in 1618, referenced on page XVI, please visit this book's page on the Harvard University Press website.

"I was happy doing my own thing. No connections. No demands. No problems. Just me, my club and a whole lot of dirty work to take care of. She never wanted a biker. She wanted stability and I gave up on that years ago. We tried to fight it. Neither of us wanted it. But she calms my fury and I show her a man who accepts every part of her. Now we're trying to figure out how to be together. Because when the need for each other is this strong, to deny it will only cause complete havoc."--Publisher description.

Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

Based on a series of case studies of globally distributed media and their

reception in different parts of the world, *Imagining the Global* reflects on what contemporary global culture can teach us about transnational cultural dynamics in the 21st century. A focused multisited cultural analysis that reflects on the symbiotic relationship between the local, the national, and the global, it also explores how individuals' consumption of global media shapes their imagination of both faraway places and their own local lives. Chosen for their continuing influence, historical relationships, and different geopolitical positions, the case sites of France, Japan, and the United States provide opportunities to move beyond common dichotomies between East and West, or United States and "the rest." From a theoretical point of view, *Imagining the Global* endeavors to answer the question of how one locale can help us understand another locale. Drawing from a wealth of primary sources—several years of fieldwork; extensive participant observation; more than 80 formal interviews with some 160 media consumers (and occasionally producers) in France, Japan, and the United States; and analyses of media in different languages—author Fabienne Darling-Wolf considers how global culture intersects with other significant identity factors, including gender, race, class, and geography. *Imagining the Global* investigates who gets to participate in and who gets excluded from global media representation, as well as how and why the distinction matters.

Poet, critic, and hybrid-genre artist Johnson tracks the use of trouble in word, concept, and practice in this debut of brief, elliptical, lyric essays. He moves through a wide swath of 20th- and 21st-century music, always alert to a sense of melancholy shared among songwriters, their songs, and their listeners in the ever-growing web of popular music. "When we say 'trouble,' we refer to the history of trouble whether or not we have it in mind. When we sing trouble, we sing (with) history," Johnson writes. "A Trouble Song is a complaint, a grievance, an aside, a come-on, a confession, an admission, a resignation, a plea. It's an invitation-to sorrow." The effect of all this trouble is dizzying. Highly annotated—often to personal, humorous, and hidden effects—the book weaves among genres,

chronologies, and various forms of trouble to ask "Where are we in song? Who are we in song?" Johnson suggests that an answer lies somewhere in the locus of singer, song, and listener—the "essential relations in the Trouble Song." Detouring into philosophy, cultural theory, and verse, Johnson works multilaterally to explore what trouble in popular music does to connect listeners, embolden them, and open a space from which trouble can be addressed across time.
