Our engineers and technicians spent thousands of hours developing the RevTech Engines with three major goals, high performance, exceptional reliability

**Custom Chrome USA Presents RevTech Performance**

knowing the color codes can be a great help..usually in 12v reg system,from the regulator there are 6 white wire having a stripe codes,blue means neutral,green means field,black means ground to body,white means hot

wired to +12v,yellow means to bat charging indicator going to instrument panel and finally red means to ignition....and always secure the regulators case to ground.

RevTech DFO  
Optimize your fuel injection without the need for expensive dyno tuning!  
Developed by Mark Dobeck, the inventor of the original Jet Kit, the DFO allows you to quickly dial in your engine's fuel delivery, whether on a stock bike, or with freer flowing air filter and/or exhaust added.
