Regarding philosophical importance, Edmund Husserl is arguably "the" German export of the early twentieth century. In the wake of the linguistic turn(s) of the humanities, however, his claim to return to the "Sachen selbst" became metonymic for the

neglect of language in Western philosophy. This view has been particularly influential in post-structural literary theory, which has never ceased to attack the supposed "logophobie" of phenomenology. "Phenomenology to the Letter. Husserl and Literature" challenges this verdict regarding the poetological

---

and logical implication. and literary implications Contribution approach to of Husserl's s to the phenomenolog work through volume y. As such a thorough r attend to it stands e- the poised to examination interplay make a novel of his between contribution writing in phenomenolog to literary the context y and studies and of literary literature philosophy. theory, (both The Rise of classical rhetoric, fiction and Metallurgy in and modern art. "Globalization, National Patterns of Development and Strategies of Firms, XIXth-XXIth Centuries", retenu au 22e Congrès international des Sciences historiques de Jinan. Les politiques économiques des états sont en effet étroitement liées à la multinationalisation des firmes comme le montrent l'exemple des compagnies à chartes, ou celui des petits pays (Finlande, Suisse) en tant qu'acteurs de la Mondialisation. Revue d'études comparatives est-ouest Haynes Manuals N.

America, Incorporated Analysing developments in digital technologies and institutional changes, this book provides an overview of the current frenetic state of transformation within the global automobile industry. An ongoing transition brought about by the relocation of marketing, design and production centres to

emerging economies, and experimentation with new mobility systems such as electrical, autonomous vehicles, this process poses the question as to how original equipment manufacturers (OEMs) and newcomers can remain competitive and ensure sustainability. With contributions from specialists in the automobile sector, this collection examines the

---

shifts in power and geographical location occurring in the industry, and outlines the key role that public policy has in generating innovation in entrepreneurial states. Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry, this book will provide valuable reading for

those researching internationalization and emerging markets, business strategy and more specifically, the automotive industry. Point de rep è re BRILL This collection of papers examines key trends in the internationalisation of employment, drawing on the proceedings of an ILO conference held in Annecy, France in April 2005. The papers focus on three related issues: the impacts of trade and investment

abroad, including the offshoring of production of goods and services, and effects on the winners and losers in terms of employment; adjustment methods for coping with the short and medium term problems related to the globalisation of employment; and the importance of international instruments to help ensure a level playing field in trade and promote development, drawing on established rights and international labour standards. A newly updated edition of this classic, hugely influential account of how the Romans defended their vast empire. At the height of its power, the Roman Empire encompassed the entire Mediterranean basin, extending much beyond it from Britain to Mesopotamia, from the Rhine to the Black Sea. Rome prospered for centuries while successfully resisting attack, fending off everything from overnight robbery raids to full-scale invasion attempts by entire nations on the move. How

were troops able to defend the Empire ' s vast territories from constant attacks? And how did they do so at such moderate cost that their treasury could pay for an immensity of highways, aqueducts, amphitheaters, city baths, and magnificent temples? In *The Grand Strategy of the Roman Empire*, seasoned defense analyst Edward N. Luttwak reveals how the Romans were able to combine military strength, diplomacy, and fortifications to effectively respond to changing threats. Rome ' s secret was

not ceaseless fighting, but comprehensive strategies that unified force, diplomacy, and an immense infrastructure of roads, forts, walls, and barriers. Initially relying on client states to buffer attacks, Rome moved to a permanent frontier defense around 117 CE. Finally, as barbarians began to penetrate the empire, Rome fielded large armies in a strategy of " defense-in-depth, " allowing invaders to pierce Rome ' s borders. This updated edition has been extensively revised to incorporate recent scholarship

---

and archeological findings. A new preface explores Roman imperial statecraft. This illuminating book remains essential to both ancient historians and students of modern strategy.

This Element  
describes for the first  
time the database of

peer review reports at PLOS ONE, the largest scientific journal in the world, to which the authors had unique access.

Specifically, this Element presents the background contexts and histories of peer review, the data-handling sensitivities of this type of research, the typical properties of reports in the journal to which the authors had access, a taxonomy of the reports, and their sentiment arcs. This unique work thereby yields a compelling and unprecedented set of insights into the evolving state of peer review in the twenty-first century, at a crucial political moment for the transformation of science. It also, though, presents a study in radicalism

and the ways in which PLOS's vision for science can be said to have effected change in the ultra-conservative contemporary university. This title is also available as Open Access on Cambridge Core.

Caterham's success was due, initially, to Colin Chapman ' s inspired design and post ' 74 to Graham Nearn ' s brilliant development. In common with several other small UK car companies in recent times, Caterham has also gone through a number of ownership changes which has

---

had an effect on the type of models produced and the Caterham Seven arguably reached its peak with the introduction of the ' R ' Series. This book covers the story of an exciting new generation of Caterham Seven models over a decade which saw the cars achieve speeds and levels of sophistication that Colin Chapman could surely never have dreamed of. *New Frontiers of the Automobile Industry* Springer Nature  
From the bestselling, prize-winning authors of beloved cult phenomena *The Lost Words* and *The Lost Spells* 'Breathtaking and

magical. Jackie Morris has created something that you could spend all day looking at' *New Statesman* 'Robert Macfarlane and Jackie Morris have made a thing of astonishing beauty' *Observer Discover* and share the wonders of the wild world as seen in *The Lost Words* and *The Lost Spells*... This collection of 100 postcards features artwork and words from two beloved modern classics, in which Jackie Morris and Robert Macfarlane celebrate the creatures, trees and plants of nearby nature, from Acorn to Wren, by way of Curlew and

Kingfisher, Silver Birch and Snow Hare, Goldfinch and Gorse. The front of each card bears one of Morris's Greenaway Medal-winning paintings; on the reverse, you will find an accompanying quotation from one of the spell-poems in the *Lost* books, as well as an identification of the species shown on the card. The remaining space is left blank for you to fill in these wild cards with pen, pencil or paint - and then send them out into the world to make and renew connections. and industrial history of Pininfarina, a true bastion of the “ Made in Italy ” phenomenon, is contained in this book with its wealth of black and white and colour photos. For almost 90 years Pininfarina has been synonymous with Italian coachbuilding. Some of the most iconic cars in the history of not only Italian but also worldwide motoring have been clothed by a firm that has been recognised as the creator of true works of art. Battista Farina,

known as “ Pinin ” , was the master craftsman who in 1930 founded in Turin the ‘ ’ Societ à Anonima Carrozzeria Pinin Farina ‘ ’ . The quality and the beauty of his creations soon established the firm ‘ s reputation and well before the outbreak of the Second World War it could boast magnificent bodies on Alfa Romeo, Lancia and Fiat chassis. 1947 saw the presentation of a milestone in the history of Italian design, the Cisitalia 202. Between the 1950s

and 1990s the company produced iconic designs such as the Alfa Romeo Giulietta Spider and the “ Duetto ” , the Lancia Aurelia B24 and the Flaminia, the Fiat Dino Spider and the 124 coup é , not to mention the innumerable Ferraris bodied by the prestigious Turin firm that from 1952 had become Maranello ‘ s coachbuilder of choice. Numerous 250 GTs, the 250 Le Mans, the 365 Daytona, the 308 GTB, the Testarossa and the

---

288 GTO are all Pininfarina-bodied Ferraris. This book recounts the most recent history of this giant of Italian car design with all the latest products realised in particular for the Asian market where the Pininfarina brand has an increasing presence. There is also a chapter devoted to Pininfarina Extra, a brand within the brand, which since 1986 has been taking a 360 ° approach to design. The full story of this iconic Italian design firm finally told in a single volume.

Dacia Duster 1.5 dci 110ch The Crowood Press Since its publication in 1969, Émile Benveniste's Vocabulaire--here in a new translation as the Dictionary of Indo-European Concepts and Society--has been the classic reference for tracing the institutional and conceptual genealogy of the sociocultural worlds of gifts, contracts, sacrifice, hospitality, authority, freedom, ancient economy, and kinship. A comprehensive and comparative history of words with analyses of their underlying neglected genealogies and

structures of signification--and this via a masterful journey through Germanic, Romance, Indo-Iranian, Latin, and Greek languages--Benveniste's dictionary is a must-read for anthropologists, linguists, literary theorists, classicists, and philosophers alike. This book has famously inspired a wealth of thinkers, including Roland Barthes, Claude Lévi-Strauss, Pierre Bourdieu, Jacques Derrida, Umberto Eco, Giorgio Agamben, François Jullien, and many others. In this new volume, Benveniste's masterpiece on the study of language

---

and society finds new life for a new generation of scholars. As political fictions continue to separate and reify differences between European, Middle Eastern, and South Asian societies, Benveniste reminds us just how historically deep their interconnections are and that understanding the way our institutions are evoked through the words that describe them is more necessary than ever.

This book, the  
first in Evro ' s  
new Formula 1  
Greats series,  
covers one of the  
most revered  
Formula 1 cars  
ever made.  
Introduced in  
1970, the wedge-  
shaped Lotus 72  
competed for six  
seasons, winning  
20 World  
Championship  
Grands Prix, two  
Drivers ' titles  
(for Jochen Rindt  
in 1970 and  
Emerson Fittipaldi  
in 1972) and three  
Constructors ' titles  
(in 1970,  
1972 and 1973),

racing first in  
Lotus ' s evocative  
red, white and  
gold livery, then  
the equally eye-  
catching black and  
gold of the John  
Player Special  
period. Pete Lyons,  
Autosport ' s  
renowned Formula  
1 reporter for part  
of the Lotus 72  
era, explores the  
car ' s entire race-  
by-race career in  
his insightful  
commentary  
accompanying a  
magnificent array  
of more than 300  
photos. The 1970  
season: after  
troubled early  
development, the  
72 finally took over  
from the long-  
serving 49, its four

---

consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to team leader after Rindt ' s death, great things were expected of the 72 ' s second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi ' s four Grand Prix

victories made him World Champion. The 1973 season: Ronnie ' SuperSwede ' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus ' s spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season:

well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx ' s second place in the tragic Spanish Grand Prix its best result. Dacia Sandero I Porter Press The first comprehensive history of the Information Age... how we got there and where we are going The exchange of information is essential for both the organization of nature and the social life of mankind. Until recently, communication between people was more or less limited

---

by geographic proximity. Today, thanks to ongoing innovations in telecommunications, we live in an Information Age where distance has ceased to be an obstacle to the sharing of ideas. The Worldwide History of Telecommunications is the first comprehensive history ever written on the subject, covering every aspect of telecommunications from a global perspective. In clear, easy-to-understand language, the author presents telecommunications as a uniquely human achievement, dependent on the

contributions of many ingenious inventors, discoverers, physicists, and engineers over a period spanning more than two centuries. From the crude signaling methods employed in antiquity all the way to today's digital era, The Worldwide History of Telecommunications features complete and fascinating coverage of the groundbreaking innovations that have served to make telecommunications the largest industry on earth, including: Optical telegraphy Electrical telegraphy via wires and cables Telephony and

telephone switching  
Radio transmission technologies  
Cryptography  
Coaxial and optical fiber networks  
Telex and telefax  
Multimedia applications  
Broad in scope, yet clear and logical in its presentation, this groundbreaking book will serve as an invaluable resource for anyone involved or merely curious about the ever evolving field of telecommunications.

This study sheds  
new light on  
identity formation  
and maintenance  
in the world of the  
early Christians by  
drawing on  
neglected  
archaeological  
and epigraphic  
evidence

concerning

associations and  
immigrant groups  
and by

incorporating  
insights from the  
social sciences.

The study's unique  
contribution  
relates, in part, to  
its interdisciplinary  
character, standing  
at the intersection  
of Christian

Origins, Jewish  
Studies, Classical  
Studies, and the  
Social Sciences. It  
also breaks new  
ground in its  
thoroughly  
comparative  
framework, giving  
the Greek and  
Roman evidence  
its due, not as  
mere background  
but as an integral

---

factor in understanding dynamics of identity among early Christians. This makes the work particularly well suited as a text for courses that aim to understand early Christian groups and literature, including the New Testament, in relation to their Greek, Roman, and Judean contexts. Inscriptions pertaining to associations provide a new angle of vision on the ways in which members in Christian congregations and

Jewish synagogues experienced belonging and expressed their identities within the Greco-Roman world. The many other groups of immigrants throughout the cities of the empire provide a particularly appropriate framework for understanding both synagogues of Judeans and groups of Jesus-followers as minority cultural groups in these same contexts. Moreover, there were both shared means of expressing identity (including fictive

familial metaphors) and peculiarities in the case of both Jews and Christians as minority cultural groups, who (like other "foreigners") were sometimes characterized as dangerous, alien "anti-associations". By paying close attention to dynamics of identity and belonging within associations and cultural minority groups, we can gain new insights into Pauline, Johannine, and other early Christian communities.
