The South African Special Forces achieved exceptional results with small groups of elite soldiers instead of larger, conventional teams. The Team Secret shows that the same principle applies in the business world – a small team has a much better chance of completing projects efficiently, on budget and on time. Teams, rather than individuals, form the DNA of many companies and they play a pivotal role in achieving strategic and financial success. Like Special Forces teams, they must function as a well-oiled machine firing on all cylinders. Koos Stadler tells in captivating detail about a real-life Special Forces operation and the lessons learnt about team

dynamics and achieving the goal. His story, combined with anecdotes from Anton Burger's experiences as a team leader in different work environments, show the many lessons the business world can take from the Special Forces. The book identifies the key characteristics of an effective team, how to select the right team members, how to inculcate an ethos centred around team principles and how an effective team should be led. It speaks to both team members and team leaders across all managerial levels – from a team leader in a call centre to a project manager or CEO. In short: To fast-track your business, shape up your teams!
