On Nabokov, Ayn Rand and the Libertarian Mind not only conjoins two seemingly divergent authors but also takes on the larger picture of libertarian trends and ideologies. These timely topics further intermingle with Bell-Villada's own conflicted relationship – personal, cultural, satirical, literary – to the “odd pair” and their ways of thinking. The inclusion of Louis Begley's essay adds yet another

dimension to this unique, wide-ranging meditation on art and politics, history and memory.

*** The Great Pyramid in the Himalaya *** In 'Thoth, Architect of the Universe' Ralf discovered evidence for megalithic maps. But if these megalithic maps are to be of any use in a quest for the mythical Hall of Records, then they need to be a little more detailed than a simple representation of continents.

Luckily, the shaft angles inside the Great Pyramid can refine these maps down to just a few tens of meters. And so Ralf embarked on a long trek into the high Himalaya, to see what lay at the heart of the Giza map. Strangely enough, what he found there was a giant snow-white pyramid, aligned with the cardinal points, with a causeway aligned at 14° from its base - exactly the same as the Great Pyramid itself. Sequel to "Thoth, Architect of the Universe". v3.6

Journalist Campbell McBride's first crime book, *The Law Town Killers*, is a success but now it's attracting some unwanted attention. McBride's going to have to return to what, when he wrote about it, seemed like a straightforward murder case - a woman strangled by her boyfriend. Otherwise, somebody he cares about might be at risk. Soon nothing is straightforward - not for McBride. Somebody is cutting up newspaper archives before he can examine them. Are they trying to stop his investigation or are they trying to tell him something? Whether he's being led or obstructed, McBride starts to think that an innocent man is in jail for murder and that there might be something significant about the black tie that was used to throttle the victim. Does it somehow link the crime to the police force? Does it show that the murder was just one in a grisly series

of young girls strangled? If McBride can't figure out what exactly has prompted these seemingly senseless, malicious crimes, then another person is due to fall victim to the killer. And this time it might be McBride's turn to suffer at the killer's hands.

Modern consumers are being bombarded with information from every angle. They can't handle it and, consequently, tune out large portions of the information. Consumers, therefore, often enter service transactions with predetermined mental scripts regarding how they predict the transactions will transpire and are not paying close attention. In order to gain their full attention, firms must find ways to surprise consumers during transactions; that is, firms must spawn mental script deviations for them. Research indicates that these script deviations can cement consumer loyalty. This book

details how to create a surprise culture in a service firm. Because a consumer can only be "surprised" by a given tactic one time and surprise ideas can be copied by competitors, a firm with a culture that generates and implements a constant stream of surprise tactics is one that has the higher edge in achieving success in the modern environment of information overload.

USA Today bestselling author Sally Goldenbaum continues her beloved Seaside Knitters Society mysteries set in the "idyllic world" (Publishers Weekly) of a small Massachusetts coastal community—rich in friendship and "full of suspense and human warmth" (The Washington Book Review) * Includes a knitting pattern * The Christmas trees are up, the

Seaside Knitters are crafting warm and beautiful gifts for the holidays, and friends and families are gathering in picturesque Sea Harbor, Massachusetts—a place where traditions run deep, but so do some treacherous family secrets . . . Winter in Sea Harbor is a feast for the senses—crackling bonfires, the scent of snow in the salty air, carols ringing out on the village green. This year, the Seaside Knitters have a sackful of obligations in addition to their usual Christmas preparations. Izzy is so overloaded with knitting classes that she hires an extra salesperson, but the new addition has trouble fitting into the yarn shop's holiday spirit. Cass, juggling the stresses of running her lobster fishery, has finally found a nanny for her active toddler. Molly

Flanigan seems practically perfect in every way—until she suddenly disappears, taking Cass's beloved rescue mutt with her . . .

Meanwhile, the holidays are kicking off in style at Mayor Beatrice Scaglia's holiday party, where a well-dressed crowd admires the mayor's sumptuous new home and the celebrity chef catering the event. An additional treat for Ben and Nell Endicott at the festive affair is reconnecting with a dear college friend, Oliver Bishop. But it's not just reunions and the appetizers that are to-die-for. Before the party-goers can toast the beginning of Sea Harbor's festive season, the chef—and young wife of the Endicott's old Harvard friend—is found dead beneath the mistletoe . . . Izzy, Birdie, Nell, and Cass must uncover the pattern

to these mysteries to remove suspicion from those they love, bring a murderer to justice—and keep Sea Harbor's holiday magic from vanishing into the chill winter air . . .

What makes these 56 word search puzzles so extraordinary, so completely AWESOME? For the first time ever, every single one comes in a picture shape that relates to the puzzle's theme. So, you'll get such shapes as an ice cream cone (for "Here's the Scoop"); a bowling ball and pin ("Right Up Your Alley"); a snowman ("Snowed In"); and a boat ("For Sail"). And there's more: some of the puzzles have rebuses and other gimmicks, and every single puzzle contains a secret message. To see what that message says, go to the grid, find and circle all the phrases on the word list, then read all the uncircled letters from left to right, top to bottom, to spell out a "punny" answer to a riddle, humorous thought, or fun fact.

(The letters are in order—but you have to figure out how the letters get divided into words.) That's what makes this collection a real, Mensa-level challenge!

Lord Acton for Our Time illuminates the thought of the English historian, politician, and writer who gave us the famous maxim: "Power tends to corrupt, and absolute power corrupts absolutely."

Extracting lessons for our current age, Christopher Lazarski focuses on liberty—how Acton understood it, what he thought was its foundation and necessary ingredients, and the history of its development in Western Civilization. Acton is known as a historian, or even

the historian, of liberty and as an ardent liberal, but there is confusion as to how he understood liberty and what kind of liberalism he professed. Lord Acton for Our Time provides an introduction that presents essentials about Acton's life and recovers his theory of liberalism. Lazarski analyzes Acton's type of liberalism, probing whether it can offer a solution to the crisis of liberal democracy in our own era. For Acton, liberty is the freedom to do what we ought to do, both as individuals and as citizens, and his writings contain valuable lessons for today.
