disposal,
construction
, ship
maintenance,
search,
rescue and
salvage
operations
repeatedly
give impetus
to training
and
development.
Navy diving

is no longer limited to tactical combat operations, wartime salvage, and submarine sinkings. Fleet diving has become increasingly important and diversified since World War II. A major part of the diving mission is inspecting and repairing naval vessels to minimize downtime and

the need for dry-docking. Other aspects of fleet diving include recovering practice and research torpedoes, installing and repairing underwater electronic arrays, underwater construction, and locating and recovering downed aircraft.

Training Manual

A compilation of manuals

for various things made by N55.
