Every thirty-three years, a rift in space connects the Federation with a mysterious race called the Calligarian who live on a planet hundreds of light years away -- much too far to travel in a Starship. Captain Kirk and the U.S.S. Enterprise™ are dispatched to transport a Federation delegation of diplomats, scholars and scientists who will travel to Calligarian directly during the brief period of time that the rift will be open. Mr. Spock

leads the Federation party as they travel by shuttle through the rift just as a group of the aliens arrive in Federation space. The meetings go smoothly until the Calligar take Spock's party hostage and Kirk discovers that the aliens are keeping a deadly secret. With angry Tellarite and Andorain fleets ready to attack the Calligar, Kirk must save Spock and the others before war breaks out and the rift closes for another fifty years.
