The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For

years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of

the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The

findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop:

Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. “ Some of the key concepts discerned in the study, ” comments Jim Collins, “fly in the face of our modern business culture and will, quite frankly, upset some people. ” Perhaps, but who can afford to ignore these findings? **An Easy-to-Use Guide with Clear Rules, Real-World Examples, and Reproducible Quizzes** Right Fit Wrong Shoe Wrong Means Right End tells the tale of Sneha, a single mother who is working hard to earn a living to support herself and her young son. Her focus solely lies on making their

ends meet and she has lost interest in love or dating. Sneha's best friend Nandini is now happily married to Aditya, an industrialist. Nandini's concern for Sneha makes her act as a matchmaker, who wants to fill her life with love and happiness. Sneha's regular pace of life is disturbed when Nikhil, a man with whom she shares an unpleasant past, enters in her life. He is haughty and Sneha will go to any extent to keep her distance from him. If these problems weren't enough, another troublemaker, Gayathri, enters the picture to create havoc. Gayathri is

Aditya's ex girlfriend who still likes him and is trying her best to jeopardize Nandini and Aditya's relationship. The only person that could help Sneha in stopping Gayatri is Nikhil. Considering their hatred for each other, will Sneha approach Nikhil for saving Nandini and Aditya's marriage?

It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing

stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle

When Jeremy's shoes fall apart at school, and the guidance counselor gives him a hand-me-down pair, the boy is more determined than ever to have those shoes, even a thrift-shop pair that are much too small. But sore feet aren't much fun, and Jeremy

that the things he has -- warm boots, a loving grandma, and the chance to help a friend -- are worth more than the things he wants.

Authenticity in an Age of For-Profit Faith and (Wannabe) Celebrities Bella Books
Founder of the phenomenon social media account PreachersNSneakers

tackles how faith, capitalism, consumerism, and (wannabe) celebrity have collided and asks both believers and nonbelievers alike: how much is too much? What started as a joke account on Instagram has turned into a movement. Through this provocative project, the founder of PreachersNSneakers

is helping thousands of Jesus followers wrestle with the inevitable dilemmas created by our Western culture obsessed with image and entertainment. In PreachersNSneakers: Authenticity in an Age of For-Profit Faith and (Wannabe) Celebrities, Ben Kirby approaches many of the difficult questions plaguing countless Christians' minds, presenting experiences and input from both sides of difficult questions, such as: Should pastors grow wealthy off of religion, and can their churches ever be too large? Do we really believe that divine blessings are monetary, or is that just religious wallpaper to hide our own greed? Is there space in Christendom for celebrities like Kanye and Bieber to exist without distorting the good news? What about this: Is it wrong for someone—even wrong for author Ben Kirby—to call out faith leaders online and leverage "cancel culture" to affect change? PreachersNSneakers will navigate these challenging questions and many

more with humor, wit, candor, and a few never-before-published hijinks. Each chapter will explore the various sides of the debate, holding space for us to make up our own minds. This book is not about finding the perfect, "right" way to do something, but instead learning how to articulate what we believe,

why we believe it, and what to do when we want to stand up against cultural norms. This book will doubtlessly become a staple for church small groups, college ministries, and book clubs, emboldening struggling believers who want to live a more genuine faith. After all, the Lord works in mysterious

colorways.

reporting on the Supreme Court's most divisive case, *Roe v. Wade*, and the unknown lives at its heart. Despite her famous pseudonym, no one knows the truth about "Jane Roe," Norma McCorvey (1947-2017), whose unwanted pregnancy in 1970 opened a great fracture in American life. Journalist Joshua Prager spent years with Norma, discovered her personal papers, a previously unseen trove, and witnessed her final moments. With an explosive revelation

at the core of the case, he tells her full story for the first time. Prager also traces Roe's fifty-year trajectory through three compelling figures: feminist lawyer Linda Coffee, who filed the original Texas lawsuit yet now lives in obscurity; Curtis Boyd, a former fundamentalist Christian, today a leading provider of third-trimester abortions; and Mildred Jefferson, the first Black female Harvard Medical School

graduate, who became a pro-life leader with great secrets. Essential to our understanding of this key debate, the right to choose or the right to life, *The Family Roe* will change the way you think about our enduring American divide.
